How to post on a padlet:

1. At the right bottom corner of the padlet you can see the following plus sign

2. If you click on it the following screen appears

In the **Subject** area you can write your name and in the **Write something fantastic** you can write your text, (e.g. which landmark you would like to visit and why).

3. If you want to add a photo of the landmark you will click on the first icon from the left.

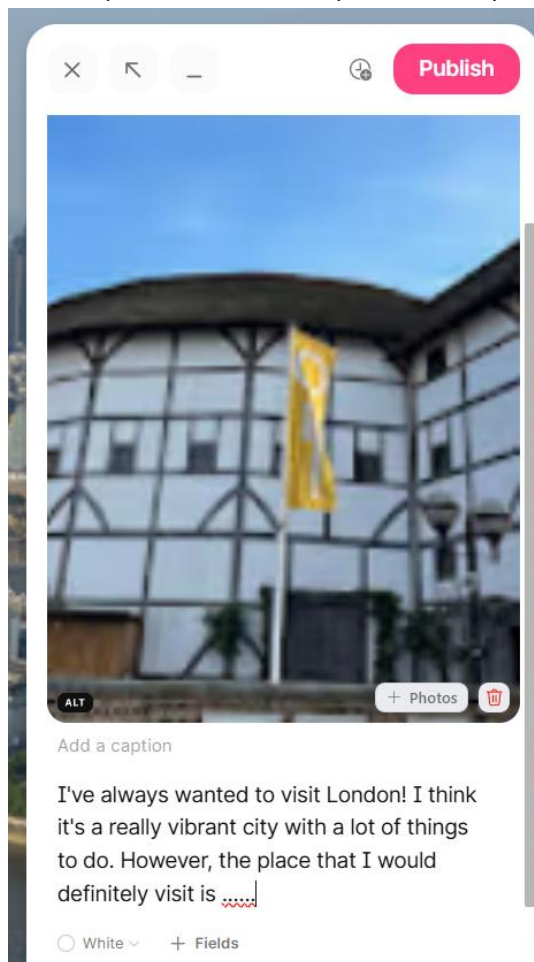

4. Then your computer file explorer will open as follows

You click on the photo you want and it will be uploaded.

5. When you've checked your work you click **Publish** on the top right corner.

Now, you should be able to see your post on the padlet.
