

STUDYING ABROAD

Have you ever wished to live and study abroad? Have you ever wanted to get to know a different culture, study at a foreign university, meet new friends, learn another language, all at the same time? Then, European life-long learning programmes must be your choice!

I'm Ana from Spain. I have just arrived from Slovenia where I have been studying for one year. I still have not unpacked my suitcase!

When I was younger, I didn't like flying and going abroad but I have discovered a new way of living since I decided to ask for an Erasmus grant.

During my stay in Ljubljana I have visited many monuments, I have met many people and I have enjoyed it!

In December, I visited Venetia which is two hours away from Slovenia. I also went to Maribor which is one of the most important Slovenian cities.

It has been a wonderful for me because I did not know anything about Slovenia and I found an interesting country.

My English has improved and now I am almost a native speaker!

QUESTIONS

Has Ana enjoyed the experience? Why?

Where has she been?

Did she like to travel when she was young?

COMPLETE THE GAPS WITH THE PRESENT PERFECT SIMPLE OR THE SIMPLE PAST
