

Graduation song

One year older One year wiser

One year taller and stronger and brighter

One step closer to being the best that I can be

Thank you for helping me

One year older One year wiser

One year taller and stronger and brighter

One step closer to being the best that I can be

Thank you for helping me

Our lights are burning bright

Knowledge is our guiding light

Happy graduation day

We have come such a long way

Our lights are burning bright

Knowledge is our guiding light

Happy graduation day

We have come such a long way

We have come such a long way

We have come such a long way
