

# ACTION PLAN

## An article to help promote the integration of refugees in your community

You are asked to make an action plan about how a group of refugees who have just arrived in your town can be integrated in the local community.

Write an article (120-150 words) for the school newspaper suggesting ways on how they can be integrated. You may refer to the kind of entrepreneurship they can be included, the ways your school can help, the potential benefits for the local community etc. Click on the pictures to below to get ideas. You can add ideas of your own, too.
