THE WAY WE LOOK

Have you ever thought about why we look the way we do? What makes some people's hair curly and others' straight? Why is some people's skin dark and others' light? These are some of the questions we asked Ms. Susan Franz, an anthropologist, who talked to us about people and their characteristics.

– Ms. Franz, why do people around the world look so different?

– Well, think about the countries we live in. They differ greatly in terrain, temperature, altitude and vegetation. Yet, people have managed to make homes almost everywhere: barren, rocky mountain tops, icy, freezing plains, wet marshes, scorching deserts. The people living in these different places have slowly become very different from each other. Their skin colour, the shape and size of their bodies and their characteristics have evolved over the years to suit their surroundings.

– Can you give us some examples?

– Of course. A good example is skin colour. Scientists think that dark skins – which are rich in a substance called melanin – offer good protection against the burning rays of the sun. Very dark, curly hair also offers good insulation from the sun and heat. In northern countries,

where the rays of the sun are weaker, people don't need dark skin. Their pale complexion allows the skin to absorb the sun's rays easily in order to make vitamin D.

– Facial characteristics are also very different. Why?

– Well, the key word here again is 'adaptation'. In extremely cold weather, ears and noses are often the first parts of the body to suffer from frostbite. That's why people who live in very cold temperatures have facial characteristics that help them survive the harsh weather. Their faces are flat, and their noses are also small and flat. They also have an extra layer of fat in their eyelids which gives them slanted eyes.

– That's very interesting! What about body size and height?

– Well, again scientists have found that people who live in hot, dry climates are often tall and thin. This lean type of body helps heat escape more quickly. People from cold regions, on the other hand, tend to have more sturdy bodies, covered by a layer of protective fat.

– So, if we move to a northern country, will our skin become pale?

— Of course not! People's bodies have slowly changed over thousands of years. Who knows what we will look like ten thousand years from now!...

Adapted from: "People and Places" Childcraft, World Book International

2.3 Answer the questions.

1. What is the main idea of the text?
2. Why have people's bodies and characteristics changed throughout the years?

3

Language focus

3.1 Look at the verbs in bold. Which tenses are used? What is the difference between them?

3.2 Read the examples and match them with the appropriate use in the boxes below.

1. More and more people **are moving** to other places.
2. Nuru **walks** many miles every day to collect water.
3. It's **snowing**. Tikki **is putting** on his heavy parka.
4. Some scientists **are flying** to Africa next week.
5. Their plane **leaves** at 3:30.
6. Dark skin **offers** good protection against the sun.

The **Present Continuous** is used to talk about:

- a. something that is happening now
- b. a future arrangement
- c. a changing situation

The **Simple Present** is used to talk about:

- d. present habits
- e. something that is always true
- f. timetables

3.3 Read the sentences and complete the rule by circling the appropriate word.

- Tikki **usually** goes fishing with his father.
- People in hot climates **are often** tall and thin.

Usually and **often** are **adverbs of frequency**.

They are placed **before** / **after** the main verb and **before** / **after** the auxiliary verbs.

4 Talking about us

4.1 Describe someone from your class. Can your classmates guess who it is?
e.g. *She wears glasses. She's holding a pencil case. She likes sports.*

4.2 Work in pairs. Ask each other questions to find out about your habits. You can use the ideas below.
e.g. *How often do you ...?*

- ☆ travel abroad
- ☆ go to festivals
- ☆ go to the cinema / theatre
- ☆ visit museums
- ☆ eat out / foreign food
- ☆ do sports

I rarely travel abroad!

I go to festivals at weekends!

NOTE
Time expressions such as **every day / week / year, on Mondays, in the morning, at weekends, once a month, twice a year, now and then, from time to time, every other day** are usually found at the end of the sentence.

5 A child's life in...

5.1 Imani lives in Sungo, a village near Lake Malawi in Africa. She is taking part in a documentary about the lives of children around the world. Listen to her talk about her daily routine and complete the chart below.

| | |
|-----------|---|
| (1) | get up, prepare breakfast, (2) |
| 7:00 | (3), sweep school |
| (4) | classes begin |
| 10:30 | (5) |
| (6) | school finishes |
| 2:15 | (7), do homework |
| 4:30 | (8) |
| (9) | (10) because we have to get up early! |

5.2 Complete the clock diagram with your daily routine. Use your notes to compare your daily routine with Imani's. What do you have in common? Are there any aspects of her life you like / don't like? What are they?

6 Writing a description

6.1 Read what Eva wrote about her new friend, Olga, in a letter to her English penfriend and take down notes about Olga. Compare your notes with your partner's.

NOTES

1. size and body
2. specific physical details (eyes, hair, face, etc.) ...
3. family
4. her past
5. interests
6. a special incident
7. character details
8. general opinion / impression

6.2 You have decided to enter a creative writing competition. The title of the competition entry is the following: **“Describe an interesting person you know or a person who makes you happy”**.

Consider the following:

- What are some important details about this person's appearance and character? Make a list.
- What order should you put your information in?
- How will you make your beginning or ending interesting?
- Should you include how you first met this person or mention how this person acted in a specific situation?

6.3 Write your description.

... I want to tell you about a new friend of mine. Her name is Olga, she is my age and we're in the same class. As you can see from the photo, she's got long fair hair, brown eyes and a friendly face with a beautiful smile. She's not very tall but she's slim and fit.

I met her on the first day of school. I went and talked to her when I realised she was new. Before she moved to my town, Olga lived in Kiev – that's in the Ukraine. Her parents are very likeable and friendly. Her dad has got a business here and her mum works in a supermarket. Her brother is called Alex and he's just like my own brother: funny!

Olga and I sit together in class. She's very good at maths – not like me! I help her with her Greek when she doesn't understand something. I think we make a very good team. We do many things together. We listen to the same kind of music. Her favourite band is U2. She's got some great CDs.

When she first came to school, some boys in the class made fun of her, which was not so nice. But she talks to everyone – even to those horrible boys. She's a very friendly person and we really understand each other. When I'm sad, she knows I need somebody to talk to and she's always there for me! Sometimes she is a bit shy but so am I.

Olga may not be from Greece but I don't care because we have a lot of things in common and it's never boring when we're together. I like her very much. She's great! I'm really glad that I met her.

USEFUL TIPS

1. Make notes before you write. Think about what information will be interesting for the reader.
2. Put different information in different paragraphs. Decide on an order for them.
3. Think of an interesting beginning and ending.
4. Use details and adjectives. They make a description more vivid.
5. Reread your text after you have finished and think about what else might be interesting for the reader.
6. Check your text for spelling and grammar mistakes.

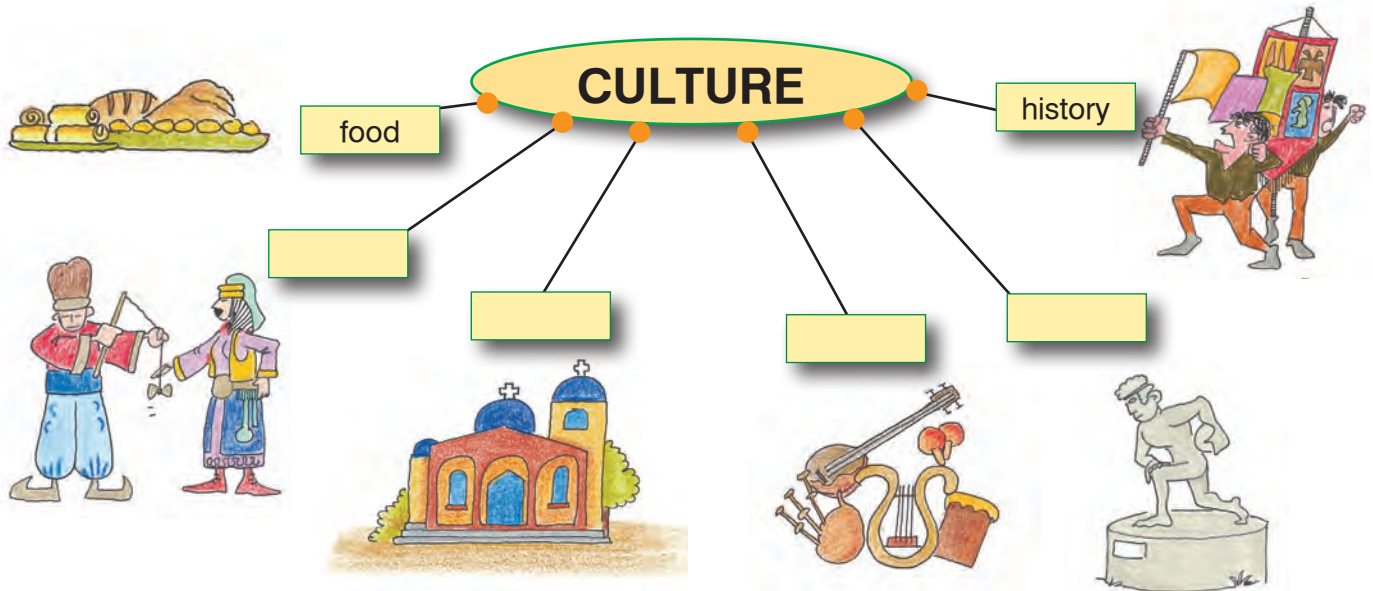

Lesson 2 Joined in our Differences

Speak & Portfolio 1

Different but alike

1.1 What is “culture”? Every country has its own, but the elements that make up “culture” are common for all people. Work in groups to complete the spider diagram below. Add your own ideas.

1.2 In the summer of 2006, some students from West Jefferson, USA, painted a mural entitled “**Unity in Diversity**”. There are four Spanish words bordering the mural. Can you guess their meaning?

It's up to you p. 151

1.3 How is the meaning of these four words represented in the mural?

1.4 Mini-project: Cultures on my street

You have decided to take part in a European Commission competition. The title of the competition entry is: “**Cultures on my Street**”. Find someone in your neighbourhood who comes from another country, interview them and write their story. Take a photo if you can. Present your stories in class.

Listen 2 Welcome to my world

Useful tip
Look at the areas you need to focus on before listening. This will help you carry out the task more easily.

At the beginning of each school year, an international school in Europe organises a “Welcome Evening” where foreign students introduce themselves and the countries they come from. You will hear one of these students, Maria Dolores, talk about her country. Listen and complete the table below.

| Name of country | Greeting | Food/Drinks | Entertainment |
|-----------------|----------------------------|----------------------------------|---|
| (1) | (2) 'Buenos dias' | Paella (3) (4) | (5) cafes / (6) / football (7) music / (8) / art galleries |

Listen & read 3 A glimpse into my country

3.1 Read what two other students say about their countries. What aspects of their culture are they talking about?

It's up to you p. 151

Hello everyone! I'm Yoko. I'm from Tokyo, the capital city of Japan. The customs of my country are somewhat different from those of the countries of the West. For example, we bow to greet someone and we

don't like standing too close to each other. If you say 'Ohay gozaimasu' to someone, you mean 'Good morning', and we young people often say 'Genki?' which means 'Are you well?'. Body language is very important, too. If you shake your hand from side to side, you mean 'no' and pointing to your nose means 'me'. You all know traditional Japanese dishes such as sushi, tempura and noodles and you probably know that we use chopsticks to eat our meals. We eat sitting on mats on the floor, therefore, our floors have to be very clean. To keep them clean, we always take off our shoes and change into special slippers when we enter the house. Sports that are very popular in Japan include judo, kendo, karate and sumo wrestling, our national sport, which has a history of more than 1,000 years! Young people also enjoy baseball, football, volleyball and tennis. Finally, two forms of traditional Japanese theatre, Noh and Kabuki, continue to thrive in my country today...

'Salut', I'm Pierre and I'm from Paris, the capital city of France! In my country we say 'Bonjour' for 'Good morning' and 'Comment allez-vous?' for 'How are you?'. Like Spanish people, when we greet each other, we shake hands and usually

kiss 3 times! We're one of the largest producers of wine in the world and famous for our 'haute cuisine'. One taste of a crêpe or a croissant, and you'll never forget it! The French love doing sport and keeping fit. Some of the most popular sports in my country are football, cycling, skiing, tennis and pétanque – a traditional game played with metal balls. Culture and the arts are extremely important in our everyday life. We celebrate local festivals through music and dance throughout the year. We also appreciate a visit to the theatre, the opera or the many famous museums, such as the Louvre, home to the world-famous painting 'Mona Lisa', or the Orsay museum to admire the paintings of Renoir, Monet and Degas, some of the greatest Impressionist artists. ...

Adapted from: www.oxfam.org.uk

3.2 Which of the two students mentions the following?
Write (Y) for Yoko, (P) for Pierre or (B) for both.

1. "People in my country don't really like physical contact"
2. "People in my country are keen on sports"
3. "People in my country like going to the theatre"
4. "People in my country like music"
5. "People in my country don't use knives and forks"

3.3 Look at the poster. Do you know how other people say 'hello' in their language? Discuss in class.

3.4 Game

Do you know how other people say 'thank you' in their language? Work in groups and make a list. The group with the longest list will be the winner.

4 Language focus

4.1 Look at the verbs in bold.

You all **know** the Louvre...
The French **love** good food and wine...
'Bonjour' **means** 'good morning'.

These verbs are called stative verbs. They refer to a 'state' and are not normally used in **continuous** tenses. Do you know any other stative verbs?

4.2 Some stative verbs can be used in continuous tenses but there is a difference in meaning. Look at the following pairs of sentences and explain what they mean in your own language.

1. a. We **have** a lot of interesting customs in my country.

b. We **are having** sushi and noodles for lunch.

2. a. We **think** that the Japanese are very polite.

b. She's **thinking** of learning karate.

3. a. Spanish food **tastes** delicious.

b. He's **tasting** the paella.

4. a. The Spanish dancers **look** very fit.

b. We **are looking** at the traditional costumes.

In my country...

Work in pairs. Use stative verbs to make true sentences about your country.

read 2 Amazing structures

Useful tip
Look for key words and phrases, such as names, dates, places, etc. Do not focus on details or unknown words.

2.1 The 3 texts below come from an article about remarkable buildings. Read them and complete the table.

| | Agia Sophia | The Tower of Pisa | The Sydney Opera House |
|---------------------------------------|-------------|-------------------|------------------------|
| a) Where is it? | | | |
| b) How old is it? | | | |
| c) Who designed it? | | | |
| d) What is its most striking feature? | | | |

The “Church of Holy Wisdom”, also called Agia Sophia, is in Constantinople – now Istanbul. It was built by the emperor Justinian after the riots of AD 532. Anthemios and Isidoros were two of the Greek architects who designed it. It took six years to build and about ten thousand men worked on it. The first stone of the foundations was laid by the emperor himself. The building had brick walls, marble linings inside, amazing mosaics made up of tiny cubes of coloured glass, marble or gold and massive marble pillars. Of all its fascinating features though, perhaps the most remarkable is its huge, shallow dome, supported on piers made of limestone. There are also smaller half-domes around the largest, supported by arches - a typical feature of Byzantine design for big buildings. Agia Sophia is well over 45m high and over 60m long and wide. Today we are accustomed to seeing buildings as large as this, sometimes even larger. But in Justinian’s time, Agia Sophia must have been truly awe-inspiring.

The famous Leaning Tower of Pisa is the bell tower of the cathedral in the city of Pisa, in Italy. Its height is 55.8m, it has 8 storeys and there are 294 steps to the top. Construction began in 1173 and it took 200 years to complete. The architect’s identity is still unknown, but we do know that he designed the tower to be vertical. After the third floor was built, the tower started to lean, mainly because its foundation was shallow – only 3 metres – and in weak soil. The Pisans stopped construction twice – for almost 100 years each time – because they were busy fighting battles with other Italian cities! In 1372, the tower was completed and seven bells were installed, one for each note of the musical scale. Over the years, there have been many attempts to straighten it, or halt the leaning. This was not as easy as it seemed. Some of those attempts had exactly the opposite result: the tower sank even further into the soil! The latest attempt was completed in 2001 and took ten years. The tower has been declared stable for at least another 300 years.

The Sydney Opera House is located in Sydney, Australia and is one of the most distinctive and famous 20th century buildings. It is also one of the world's most famous performing arts venues and since its opening, it has become a symbol of Sydney. Designed by Danish architect Jørn Utzon, it reaches out into Sydney Harbour and its spectacular roof reminds us of a moving ship at full sail! Construction began in March 1959 and it was completed in 1973 at a cost of \$102 million! It is very large (183m x 120m) and it is supported on 580 concrete piers sunk up to 25m below sea level. The roofs of the House are constructed of 1,056,000 white granite tiles and the interior is composed of pink granite and wood. It has about 1,000 rooms, 5 theatres, 5 rehearsal studios, 2 main halls and a multitude of restaurants, bars and souvenir shops. What you may not be aware of is that you've probably seen this breathtaking structure featured in films such as "Mission Impossible II", "Independence Day", "Finding Nemo" and many more!

UNIT 2

ECHOES OF THE PAST

You're a time traveller and you're going back to the time of past civilisations. Look at the pictures. What do they illustrate? Can you recognise any of the civilisations? Do you know anything about them? Discuss.

On a winter night in 373 BC, a catastrophic earthquake and tidal wave destroyed Helike, the principal Greek city located in Achaia, Northern Peloponnesos, two kilometres from the Corinthian Gulf. The entire city and all its inhabitants were lost beneath the sea.

Helike had been founded in the Bronze Age and its pan-Hellenic sanctuary of Poseidon was known throughout the classical world. It had led the twelve cities of the first Achaean League, and had founded colonies in Asia Minor and in South Italy. The dramatic destruction of Helike was one of the most appalling tragedies of the classical world and may have inspired the creation of a very famous myth.

• Which myth do you think this is?

In this Unit you will:

- read about ancient civilisations and world mysteries
- listen to scientists talk about ancient cities
- talk about life in the past
- write a story
- enter an art competition
- do a project on world mysteries

At the end of this Unit, you should be able to:

- talk about past habits and events
- talk about actions in progress in the past
- describe natural disasters
- react to good or bad news
- relay a message from Greek into English

Lesson 4 Mysteries of our World

Speak & Listen

1 The legend of Atlantis

- 1.1** What do you know about the lost city of Atlantis? Where was it? What happened to it? Discuss.
- 1.2** You are studying the mystery of Atlantis in your History class and your teacher has asked you to make a short presentation to a group of British students who are visiting your school. You have already done some research, but some information is missing from your notes below. Listen to part of a BBC radio programme about Atlantis and fill in the gaps in your notes.

NOTES

- ✓ Earliest records of Atlantis: 370 BC.
- ✓ Plato learned the story from Solon.
- ? Solon learned the story when he travelled to (1)
- ✓ The island was named after Atlas.
- ✓ On top of a hill, there was a temple.
- ? Inside the temple was a (2) statue of the God of the Sea driving six winged (3)
- ? A violent (4) shook the land, giant (5) rolled over the shores and the island sank into the sea.

Did you know?

Over 5,000 books have been published on the legend of Atlantis.

A myth or not?

2.1 Work in pairs. Complete the first two columns of the KWL chart with what you already know about Atlantis and what else you would like to know about it.

| K (know) | W (would like to know) | L (learnt) |
|----------|------------------------|------------|
| | | |

2.2 Mr. Alexandros Demetriou, a famous Greek archaeologist, was interviewed about Atlantis for an English language newspaper, “The Athens Tribune”. Read the interview and find three more interesting facts about Atlantis. Complete the last column of the KWL chart above.

Reporter:

– Mr. Demetriou, just a few questions from our readers about Atlantis... Do we know where it used to be?

Mr. Demetriou:

– Well, there are many and varied theories. Plato stated that Atlantis lay in the Atlantic Ocean near the Rock of Gibraltar. Other researchers believe that the island's location was somewhere in the Mediterranean Sea. Finally, there are some people who think that Thera could be the island of Atlantis.

Reporter:

– That sounds interesting. I guess it's because of the discovery of the city of Akrotiri, which was excavated by the well-known archaeologist Spyridon Marinatos, right?

The volcano of Thera

Mr. Demetriou:

– Possibly. In about 1500 BC, Thera was destroyed by the world's largest volcanic eruption. Akrotiri was buried

beneath 15 feet of ash, which preserved its streets, buildings and impressive wall paintings. It's an exciting theory, but not a widely accepted one, I must say.

Reporter:

– What is so interesting about Atlantis?

Mr. Demetriou:

– Well, Plato's description was of a land of wealth, beauty and advanced civilisation.

This made many explorers seek out its location. They read Plato's dialogues like a treasure map, which would help them locate the lost city.

Reporter:

– It sounds like a magical place.

Mr. Demetriou:

– It may have been ... There are of course archaeologists and researchers who have challenged these theories, saying the Atlantis story is just a myth. Yet, people still long to discover Atlantis, even with no archaeological proof of its existence...

... *When Time Stood Still...*

I

Almost 2,000 years ago, and only a few days' journey from Rome by coach, the lively city of Pompeii lay at the foot of a volcano named Mount Vesuvius.

II

Pompeii was a dynamic, commercial centre full of life. There were dozens of shops where shopkeepers sold jewellery and perfumes, potters worked with clay, and metalworkers and glassblowers amazed passers-by with their skill. There were theatres, bars, taverns and public baths where people used to go to relax and socialise. There was also an amphitheatre where people used to watch gladiators fight.

III

Vesuvius had not erupted in more than a thousand years. There had been an earthquake some years earlier, but no one could imagine what would follow... Then, in August AD 79, the earth started to shake again, and a few hours later, the volcano erupted with a tremendous bang. Tons of rocks, ash and hot lava buried Pompeii. Buildings collapsed, fires broke out everywhere. It was a terrifying scene. People everywhere were screaming, children were crying, and others were praying for the destruction to stop. For the city of Pompeii, time stopped here.

IV

In 1748, when archaeologists began excavations, they discovered that the lava had not only destroyed Pompeii, but it had also preserved it. Everything was found exactly the way it had been almost two thousand years ago. Archaeologists found shops, temples, a theatre, wall paintings. The hot ashes had hardened around people's bodies preserving the positions they were in at the time of the eruption. The bodies had turned into dust, but by pouring plaster into holes in the hardened ash, archaeologists were able to make out their shapes. In some cases, they could even see the expression on a person's face. Inside the houses they found a half-eaten loaf of bread, eggs, a kettle on the fire. They even found a sign at the entrance of a house saying 'Cave Canem', which means: 'Beware of the Dog'!

ΔΙΣΠΗΛΙΟ: Η ΠΟΛΙΤΕΙΑ ΤΟΥ ΝΕΡΟΥ

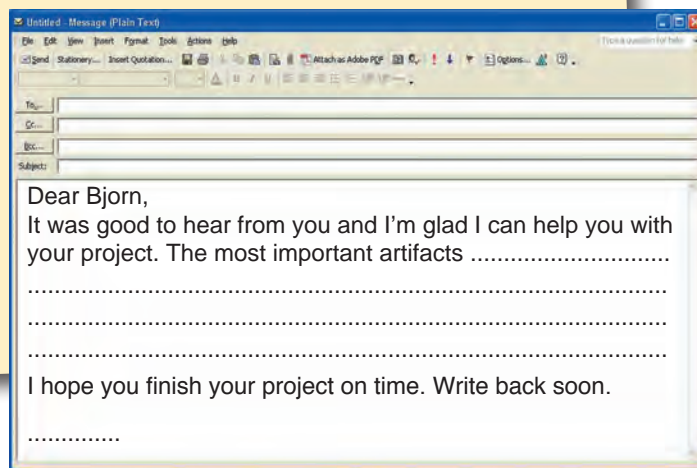

Ένα ταξίδι στο χρόνο, με προορισμό το 5500 π.Χ., τότε που οι άνθρωποι ζούσαν οργανωμένα σε πασσαλόκπιτα σπίτια μέσα ή δίπλα στη λίμνη της Καστοριάς, κάνουν όσοι επισκέπτονται τον λιμναίο οικισμό του Δισπηλιού. Πρόκειται για μια περιοχή μοναδική στην Ελλάδα καθώς ο οικισμός του Δισπηλιού είναι ο μοναδικός λιμναίος στη χώρα μας και ένας από τους πιο γνωστούς στα Βαλκάνια και την Ευρώπη.

Ο άνθρωπος είχε από την προϊστορία ακόμα μια ιδιαίτερη σχέση με το νερό. Το νερό εξασφάλιζε εκτός από την τόσο απαραίτητη ύδρευση ένα σωρό άλλα πλεονεκτήματα σε μια ανθρώπινη εγκατάσταση. Εκεί ποτίζονταν τα ζώα που εξέτρεφε, και έβρισκαν τροφή στην πλούσια βλάστηση που φυτάν δίπλα του. Πρόσφερε, επίσης, τη δυνατότητα να ποτιστούν τα χωράφια που εξασφάλιζαν στον άνθρωπο την καθημερινή διαβίωσή του. Έτσι οι περισσότεροι προϊστορικοί οικισμοί ήταν εγκατεστημένοι κοντά σε πηγές.

Φαίνεται ότι υπήρχε τότε πολιτισμός. Από τα ευρήματα που βρέθηκαν στο Δισπηλί, ξεχωρίζουν ειδώλια που αναπαριστούν άνδρες, γυναίκες και ζώα, κοκάλινες φλογέρες, πήλινα αγγεία, φιάλες και μαγειρικά σκεύη, κοσμήματα, χάντρες και κοχύλια. Τέλος, θα πρέπει κανείς να αναφερθεί στο πιο αναπάντεχο από τα ευρήματα. Μια ξύλινη πινακίδα που αλιεύτηκε, στην κυριολεξία, από τη λίμνη και χρονολογήθηκε στο 5260 π.Χ. φέρει επάνω της «σήματα» που θα μπορούσαν να αποδοθούν σ' έναν κώδικα μίας πρωτογενούς γραπτής επικοινωνίας.

A glance back in time

2.1 Look at the pictures below and guess what they show and which civilisation they come from.

2.2 The following article is about ancient Egypt. You want to read it but paragraphs 2-5 are not presented in the right order because of a printing error. Can you put them in the right order?

LAND OF THE PHARAOHS

1

We have all heard of the sophisticated civilisation of the Egyptians. Not only was it one of the first, it also lasted the longest: nearly 3,500 years!

The Egyptians were superb engineers, astronomers, accountants, mathematicians and surgeons, and they used mysterious symbols, called hieroglyphics, to write. They built temples dedicated to their Gods and a famous statue, the Sphinx. What they are best known for, though, are the pyramids they built.

The main role of these tombs was to protect the pharaohs' bodies from decay, since the Egyptians firmly believed that after death, their spirits lived on and would need their bodies in the afterlife! They preserved the bodies by using salt and various substances to dry them out, after they had removed all the internal organs. Afterwards, they wrapped the bodies in linen bandages to become mummies. Many things the pharaohs had used while they were alive accompanied them into the tombs: jewellery, furniture, make-up, toys and especially food!

One reason for this was Egypt's location. It lies in a valley between two deserts, and the great river Nile, almost 1,000 km long, crosses it from top to bottom. Every year, for about 4 months, the Nile overflowed and flooded the surrounding fields. As the water slowly receded, it left behind a thick layer of mud. This made the fields very fertile and gave Egypt its ancient name, Kemet, which meant 'black land'.

How did they build them? No one really knows how they managed to lift the tremendously heavy stone blocks and lay them in place. What is even more remarkable is that they had no heavy equipment, such as cranes, to help them; they didn't even use the wheel until a few centuries later! Probably, thousands of men dragged and pulled the blocks up specially made ramps. These imposing stone structures were constructed as tombs for their kings and queens, the Pharaohs.

6

Our fascination with the Egyptians has no end. We will always owe this magnificent civilisation more than we will ever know.

2.3 Listen to check if you have found the right order.

2.4 Read the article again and tick whether the statements are True (T), False (F) or Not Mentioned (NM).

1. The river Nile flows through Egypt and other countries as well.
2. Egypt got its ancient name from the mud.
3. The Egyptians were very good at most sciences.
4. They used heavy equipment to move the stones for the pyramids.
5. The Pharaohs decided where the pyramids would be built.

2. **What** happened in the story?
3. **When** did the disaster happen?
4. **Where** did it happen?
5. **How** did it happen?
6. **Why** did it happen?
7. **How** did life for the villagers change after the disaster?
8. **How** did the main character feel?

7.2 Find the following in Minoas's story.

1. What does he say in the first and last paragraphs?
2. Why does he use his mother's actual words in paragraph 2?
3. Underline all the time expressions in the story. What are they used for?

7.3 You have decided to enter a story competition. The title of the competition entry is the following: **"Imagine you are living in ancient Greece, or another ancient civilisation. Write your own story about a life-changing experience you had"**. Make notes first and look at the 'Useful Tips' for help.

7.4 Write your story.

7.5 Read your partner's story and help him/her to improve it. Look at p.162 for tips on how to give peer feedback and write comments on your partner's writing.

7.6 Rewrite your story in order to improve it. Take into consideration your partner's comments.

I'll never forget that hot summer day many years ago when I was still a young boy living in the village of Malia in Crete. It was a little after noon and I was at home, practising a new song on my lyre.

Suddenly, I heard a loud rumble and the earth started to shake beneath my feet. Mother, who had been in the storage room with the servants, ran up to my room. "Get out of the room - quick", she shouted, as she grabbed me by the hand and pushed me towards the doorway.

I ran into the yard and looked around. Dust and ashes covered everything and the buildings were in ruins. I suddenly remembered that my brother had gone down to the harbour. I ran off to look for him, worried that something bad might have happened to him. When I reached the harbour, I was relieved to see him running towards me. Before I had time to even think, giant waves started crashing onto the shore. We ran together towards the mainland as fast as we could. Almost out of breath, we managed to climb up a tree and out of harm's way at the very last moment!

A few days later, my father told us that there had been a tremendous eruption on the island of Thera. It had destroyed the whole island along with many other villages like my own. It was shocking news.

In the days that followed, life was very tough. It took us a long time to rebuild the village, but eventually life got back to normal. We could only hope that nothing like this would ever happen again.

USEFUL TIPS

1. Give specific information about **when**, **where**, **how**, **who**, **what** and **why**.
2. Think of an interesting beginning; it will make the reader want to read on.
3. Use time words (*first, next, then, before, as soon as, after that, later, finally*) to help the reader follow the order of events in your story.
4. Make good use of tenses. We mainly use past tenses in stories.
5. Describe feelings.
6. Use interesting vocabulary (*'wonderful' news instead of 'good' news, 'horrible' accident instead of 'bad' accident, etc.*)
7. Use dialogue, action and detailed description to make your story sound real and your characters come alive.
8. Pay attention to punctuation. Use exclamation marks (!), ellipses (...), etc.

.....
3. What does she talk about in each paragraph?
.....
.....
.....
4. Is this letter formal or informal? What helped you decide?
.....

5.2 Write a letter answering Emma's questions.

Think about the following:

- What information are you going to include in each paragraph? Make notes.
- Have you answered all your friend's questions?
- Can you add any more information? You can write about interesting places to visit, food, entertainment, etc.
- Should you use adjectives such as *great*, *exciting*, *wonderful*, etc., to create positive feelings?

5.3 Check your letter for grammar and spelling mistakes.

December 15th

Dear Myrto,

I'm writing to let you know that I've arranged times and tickets, and I'm coming to Greece on January 3rd. My plane arrives at the airport at 10am.

I'm so excited! I can't wait to see the sights and spend some time with you and your family. So, what are your plans for those ten days? What are we going to do? I hope we can visit some ancient monuments, but most of all, I want to make time to see the skiing competition you told me about. I would also like to know if we'll have time to go shopping. I want to buy some souvenirs for my friends!

By the way, what's the weather like? What clothes should I bring? Write soon to let me know about your plans. That's all for now. Thanks again for inviting me. Look forward to seeing you.

Lots of kisses!!!

Emma

P.S. Can you come and pick me up from the airport?

USEFUL TIPS

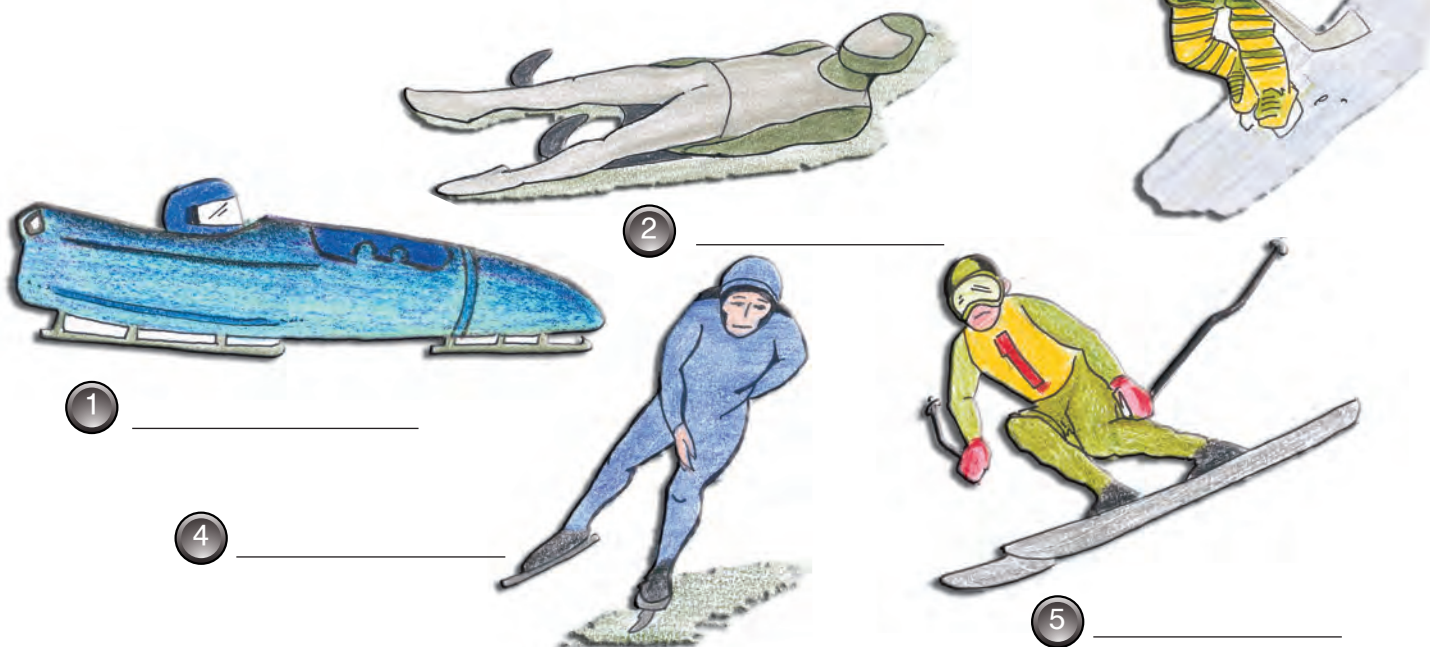

1. Use an appropriate greeting and ending.
2. Say why you are writing in the opening paragraph.
3. Give your friend all the information he/she needs. Make sure you answer all his/her questions.
4. Finish the letter with set phrases like: *look forward to seeing you*, *see you soon*, *keep in touch*, *write soon*, etc.
5. Use a P.S. if you want to state something you have forgotten or if you want to emphasise something.

Lesson 9 ...Let the Games Begin!

Ready... Set... Go...

Look at the pictures. Do you recognise any of these sports?
Do you know what they have in common?

A sport on ice

2.1 Read the interview below between Jim Jansen, a well-known sportscaster and Raphael Duke, an ambitious curling athlete who hopes to make the next Olympics. As you read, underline three things that make curling unusual. Compare your answers with your partner's.

CURLING: An Unusual Sport!

Here we are, in the All-Stars Sports Stadium and standing next to me is Raphael Duke, the athlete we will all be hearing about in the very near future! Raphael is a curling champion and he has very kindly agreed to answer some questions about this very unusual sport!

- Raphael, how would you describe curling to the people who have never even heard of it?
- Well, first of all, curling is an exciting winter sport where players slide a heavy stone down a 'corridor' of ice towards a round target area.
- That sounds fairly easy, but I'll bet it isn't! ...
- I'll say! The players have to use strategy in order to play well. In fact, curling is so demanding, that people often refer to it as "chess on ice".

– These lanes of ice remind me of really big bowling alleys, only they have these very short side walls. Why is that?

– First of all, they're wider and longer than bowling alleys. The walls don't allow the stone to slide off the lane. Look at the end of the lane. There is a large circle there called the 'house', which has 3 concentric scoring rings of different colours. The centre is called the 'tee'.

– Do you need any special equipment?

– Of course! The most important piece of equipment is obviously the curling stone. It's a round stone specially

made of granite, and it has a handle on top. It's quite heavy, too ... it weighs 19 kg! We also wear special shoes. One of the shoes has a rubber sole that grips the ice and the other one is covered with a smooth material so we can slide on the ice too. We also use special brooms to sweep the ice in front of the stone. Sometimes we wear gloves to keep our hands warm.

– Now, I know that matches are played between two teams of 4 players each. But how do you play?

– We slide two stones from one end of the lane to the other taking turns. The other teammates run alongside the stone clearing its path with brooms, which makes the stone travel further. We have to be very careful, though, not to touch the stone. We all aim close to the 'tee', or try to knock the other team's stone away from it. Each team tries to have as many stones as possible in the 'house'. The coloured scoring rings help us judge which stones are closer to the centre. The team with the most points wins!

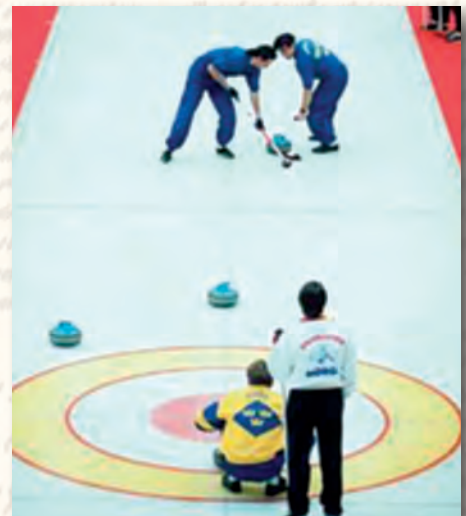

– I'm sorry ... did you say that the players are the ones who judge the position of the stones? There are referees, aren't there?

– No, there aren't. Funny, isn't it?

– It sure is. Oh ... and by the way, do you know where curling comes from?

– It probably comes from Scotland and was originally played as an outdoor game on frozen lakes and rivers in the 1500s. Scottish players improved it, made up rules and turned it into a sport that was carried to other countries.

– That's true. It's very popular in Canada where the winters are very long and cold. Canada has got some great curlers. Has it been an Olympic sport long?

– Since the '98 Games in Nagano, Japan! Until then, it had appeared as a demonstration sport in some Games ... Oh, look! I'm sorry, but I'll have to leave you here. My teammates are waving their brooms at me! Time for practice!

– Of course, Raphael. Thank for your time, and ... happy curling!

2. What equipment is necessary to play the sport?

Remarkable athletes

Listen to the story of two Greek athletes who participated in the Olympic Games hundreds of years ago and answer the questions.

The true meaning of sports

It's up to you p. 153

- 4.1 At the modern Olympic Games, the first, second and third-placed athletes are rewarded with gold, silver and bronze medals, and in many cases, with great sums of money. At the Olympic Games in ancient Greece, there was only one winner, who did not receive any kind of financial reward. What was the prize for Olympic winners then? Why was it an important reward for them?
- 4.2 Read an extract from an article written in August 2008, during the Olympic Games in Beijing. According to this extract, doping is a phenomenon which seems to be getting worse and worse. Why do you think this is happening?

"...Doping problems in China still exist, leading to some major anti-doping violations from time to time", said Duan Shijie, BOCOG executive vice-president and a vice-minister in China's General Administration of Sports. "It has been spreading from professional athletes to amateurs and from professional competitions to sporting schools and even social sports."

UNIT 4

LET'S CHANGE OUR SCHOOLS

“Nea Pedagogiki”

- 1.1** Read a short extract from “Nea Pedagogiki” (Nikos Kazantzakis, “Anafora ston Greco”) in which the author gives an account of his school experiences at the end of the 19th century. What do you think the ‘new’ teaching approach was all about?

Στην Τετάρτη Τάξη βασίλευε και κυβερνούσε ο Διευθυντής του Δημοτικού. Μας είχε έρθει σπουδασμένος από την Αθήνα κι είχε φέρει, λέει, μαζί του τη Νέα Παιδαγωγική. Θαρρούσαμε πως θα 'ταν καμία νέα γυναίκα και την έλεγαν Παιδαγωγική· μα όταν τον αντικρίσαμε για πρώτη φορά ήταν ολομόναχος· η Παιδαγωγική έλλειπε, θα 'ταν σπίτι. Κρατούσε ένα στριφτό βούρδουλα, μας έβαλε στη γραμμή κι άρχισε να βγάζει λόγο. Έπρεπε, λέει, ό,τι μαθαίναμε να το βλέπαμε και να το αγγίζαμε ή να το ζωγραφίζαμε σ' ένα χαρτί γεμάτο κουκκίδες. Και τα μάτια μας τέσσερα· αταξίες δε θέλει, μήτε γέλια, μήτε φωνές στο διάλειμμα· και σταυρό τα χέρια.

- 1.2** How did the teacher apply this ‘new’ approach in his classes?
- 1.3** Compare Kazantzakis’ classroom reality with yours. How have things changed since then?
- 1.4** Interview your parents or grandparents about their school life. Ask them about the following aspects: school subjects, discipline, books and materials, classrooms, dress code, length of the school day and school year, etc. Share your findings in class.

In this Unit you will:

Lesson 10 Looking at Other Schools

A school is...

A school is not just a building; it is much more. What makes up a school? Fill in the blanks in the picture below with your ideas.

A completely different experience

This is an extract from Joan Benoit's high school journal. Read it and answer the following questions.

1. The writer talks about two of the schools she went to. How did she feel about each one?
2. What was the impact of each school building on the writer?
3. How did the students' behaviour change in the new school? Why?
4. What does the writer say about rules in both schools?
5. Why was the headmaster right in trusting the students?

As an adult I can understand my junior high school teachers, but it was hard to be their student. The building was overcrowded – we were still waiting for the new high school to open – dark, old and depressing. We didn't have any extracurricular activities to enjoy after school, so we all came and went at the same hours. We did everything together, day after day. We were a jumpy, bored mob – it was no wonder that they needed so many rules to keep us in line.

Going into high school was a completely different experience. Suddenly, we had choices to make; nobody was telling us where to be and what to do all the time. The headmaster of the school felt that we should be given more control of our time in school. The high school offered a series of mini-courses in English and Social Studies from which we could pick and choose. In free periods we could elect to swim, study in the library, sit out on a sunny hillside, eat, or do anything else that didn't involve leaving campus, disturbing classes, or breaking rules.

People told the headmaster he was wrong. They said high school kids would tear the building apart unless they were kept under the strictest discipline. Here the town had spent a fortune to build a new school and he was going to let it be destroyed.

But they underestimated us. We were grateful for the building and for the freedom to experiment with it. We understood that Mr. Raynolds was depending on us to behave like responsible people ...

Back to School, with a Laptop

It used to be that getting ready for another school year meant buying a few new No.2 pencils, spiral notebooks and a lunchbox. Not anymore. Young children and teenagers, as well as college students, are going to school with more electronic gadgets than ever.

.....
Another change is that the newest tech devices are not aimed at just older students anymore. While laptops are still most useful for those going off to college, younger students are starting to use them as well. The technological era has truly taken off!

4.2 The Ministry of Education is going to equip all schools with modern technological means. Students have been asked to suggest what their school needs the most. Suppose you are members of your school committee. Get into groups of four. Two of you take role A and the other two take role B. Prepare your arguments to support your point of view and act out your roles.

ROLE A:

You and your partner think that an interactive white board is what your school needs the most. Try to persuade the other members of the committee. Come to an agreement.

ROLE B:

You and your partner think that new computer software and CD-ROMs is what your school needs the most. Try to persuade the other members of the committee. Come to an agreement.

7 Writing a report

7.1 The headmaster of a school in New Zealand is thinking of starting 'after school clubs' for his students. He asked them to think of ideas and write a report making suggestions. Here is the report the student committee wrote. Read it and answer the questions. Compare your answers with your partner's.

1. What is the topic of this report?
2. What is the reason for writing this report?
3. What is the main idea of each paragraph?

7.2 Look at the underlined words and expressions and explain what they are used for.

7.3 The headmaster of your school has asked you to write a short report suggesting what new equipment your school needs. As member of the student committee, write your report describing the present situation and suggesting what equipment you would like to have. Justify your choices.

Make notes first and plan your report. Look at the 'Useful tips' for help.

Think about what kind of information you would like to include in the report.

- What is the topic of your report?
- Who are you writing this report for?
- What kind of equipment is there already in your school?
- What else do you need to get?

7.4 Write your report.

From: The Student Committee
To: Mr. Willis

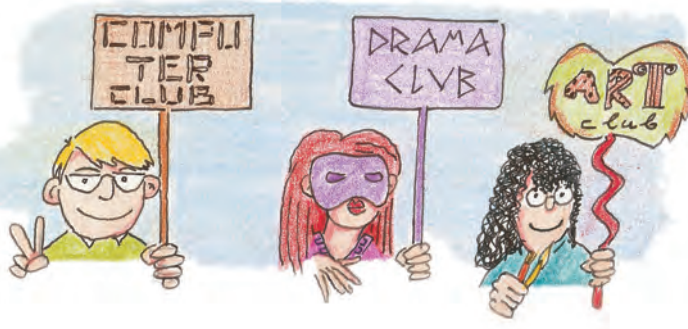

Subject: "After School Clubs"

The purpose of this report is to present our suggestions for the creation of 'after school clubs' in our school. We have many different interests and we would like the clubs to offer a variety of activities so there is something for everyone.

Our school has no 'after school clubs' at present. Although the idea has come up in student committee meetings several times, unfortunately, nothing has been done so far.

To begin with, many students have expressed an interest in putting on plays or shows, and a DRAMA CLUB would give them the opportunity to do so. Furthermore, it could help raise money for charity, or entertain students with performances at the end of the year. It would be a good idea if there were a COMPUTER CLUB, too. Students could get together and do projects in the computer lab, or get in touch with computer clubs from other countries! Finally, we would like to suggest an ART CLUB. It would be a good idea for those of the students who are artistic. They could come up with imaginative ways to decorate our school. In addition, they could have 'Art Evenings', to exhibit their work to their parents and peers.

These are just a few ideas of course. The possibilities are endless and we are all very anxious to see the 'after school clubs' become a reality.

USEFUL TIPS

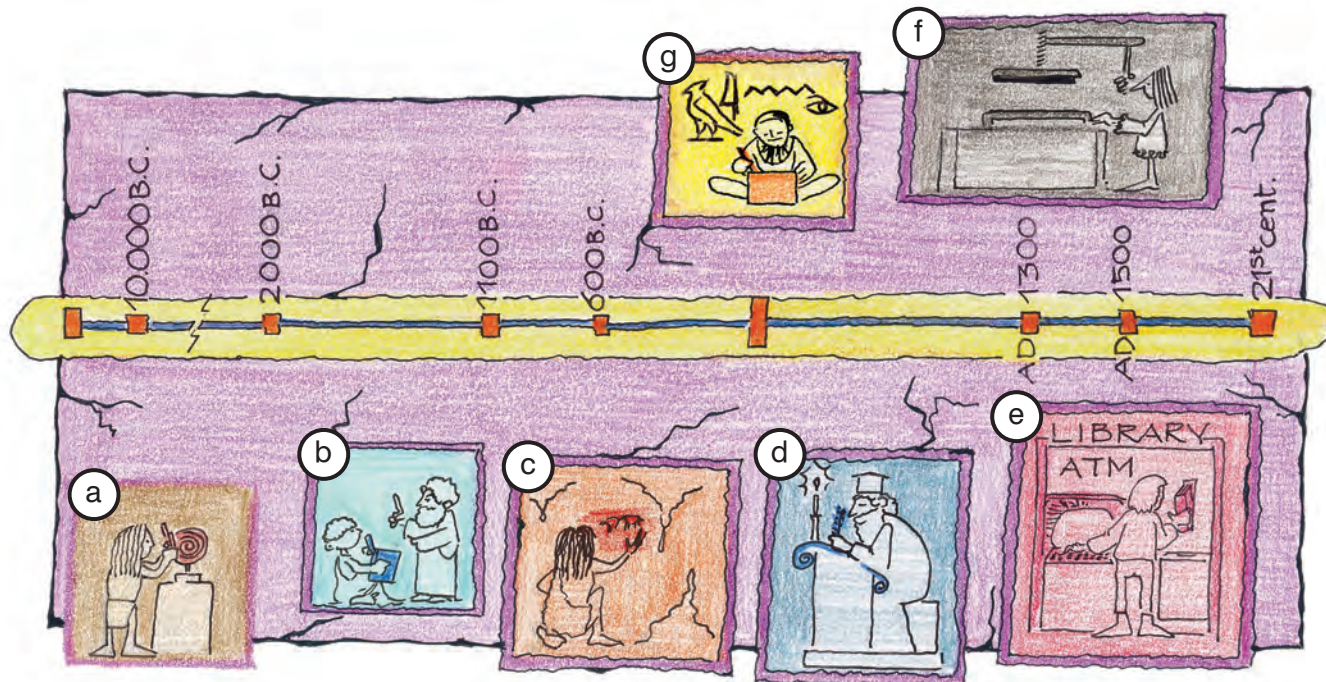

1. Make sure you know the reason you are writing your report and who you are writing for.
2. Reports should not be very informal.
3. Think about what you want to say and make a list of your ideas grouping similar ones into paragraphs. Write different paragraphs for different ideas.
4. Make your comments and suggestions clear and specific.
5. Give your report a general title. You can also give each paragraph a heading to make your report easy to read.

read 2 Just put it in writing

2.1 Read the texts about the history of writing and printing and complete the table on the next page.

History begins with writing. It is this invention which allowed man to advance at a rate that would have been unthinkable in prehistoric times! The oldest known writing in the world are carvings and marks on a limestone tablet which was found in Mesopotamia and is estimated to be about 5,500 years old. Sumerian scribes slowly developed these symbols into a kind of writing which is known as cuneiform. This writing spread widely in the Near East, while the ancient Egyptians developed a type of picture-writing: the hieroglyphic script. The first writing, however, to be written consistently in horizontal lines, were two forms of syllabic script used by the Minoans on the Greek isle of Crete in 1500 BC. Because of this, these two forms are known as Linear A and Linear B. Another important early syllabic script was that used in the Phoenician city of Byblos – from which comes the word 'Bible', meaning 'book'!

cuneiform writing

*Johann Gutenberg
(1397-1468)*

The most important invention of the Middle Ages was printing. Until the 15th century, all European books were either copied by hand or printed from wooden blocks that had been carved with the text of an entire page. Both these methods were extremely time-consuming and books were very expensive. Johann Gutenberg, who was a German goldsmith, was the first European to produce movable, metal letters, which could be used again and again. He converted a wine press into the first printing press and found a durable metal to make the letters from. Gutenberg's invention turned out to be revolutionary: books could now be printed cheaply and in great numbers. Mankind began to rush forwards!

In our days, electronic books, better known as e-books, have begun to revolutionise the way people read. What are e-books? They are books in digital format, meaning that they can be viewed on a computer screen, or even the latest cell phones! Like traditional books, they have titles, pages, chapters, and illustrations. Unlike traditional books, they can be ordered on-line and they are delivered electronically to your computer. They are more convenient than books, since it is much easier to carry around a laptop rather than dozens of heavy books... They are also cheaper than conventional books, which makes them an attractive alternative to consumers. As we sail towards a society that will surely be based on electronic information, e-books will undoubtedly take on a more important role in our lives.

Project time: Time for debate!!!

Do you know what a **debate** is? It is a contest in which two opposing speakers or groups each make speeches to support their side on a specific issue. Since they disagree on the issue, they must present solid arguments in favour of their side. At

the end of the debate, judges decide which group was more persuasive.

Look at this statement:

"Teachers cannot be replaced by computers"

Are you **for** or **against** this opinion? Take a side, get into groups and prepare to debate this issue.

How to prepare for a debate

- Research your topic using available resources.
- Prepare your arguments and support them with evidence. Try to predict what the other team's arguments and responses may be and prepare for those, too.
- Prepare a set of questions for the other team.
- Prepare an outline summarising your position.

How to conduct a debate

Speeches can last up to 2 minutes.

Speech 1: The team who is **in favour of** the issue speaks first (proposition team). A speaker from this team introduces the topic and analyses the team's first arguments.

Speech 2: The team who is **against** the issue goes next (opposition team). A speaker from this team states and analyses their first arguments.

Speech 3: The **second speaker of the proposition team** states and analyses the rest of the arguments.

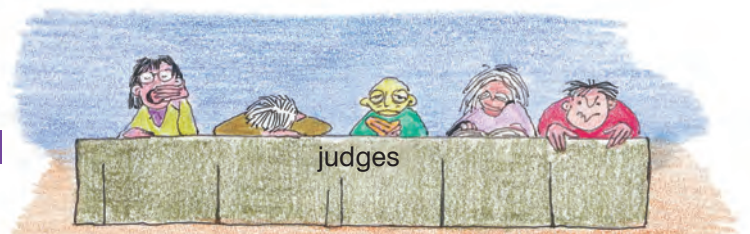

Speech 4: The **second speaker of the opposition team** states and analyses the rest of the arguments.

There is a 5-10 minute break for each team to prepare their final speech.

Speech 5: The **opposition team** opposes the proposition team's arguments and summarises their own speech to show why their point of view is better.

Speech 6: The **proposition team**, in turn, opposes the opposition team's arguments and summarises their own speech to show why their position is better.

3.1 You are at the Pablo Picasso museum. The following text is part of a leaflet about the story of the painting above. Some of the words have not been printed. Listen to the museum guide and fill in the gaps.

The artist's eye

It was 1937. Spain, Pablo Picasso's home country was suffering from a civil war, while he was living in (1) On April 26th, the Spanish government sent planes to bombard a small (2)

..... in northern Spain called Guernica. Guernica was completely destroyed. (3) civilians were killed. The next day, George Steer, a reporter working for (4) revealed

the destruction. By (5), news of the massacre at Guernica had reached Paris. Eyewitness reports filled the front pages of Paris papers. Picasso was stunned

by the (6) photographs. He rushed to his studio, where he quickly sketched the first images for the mural he would call “Guernica”.

3.2 Why do you think Picasso created “Guernica”?

4 Picasso’s “Guernica”

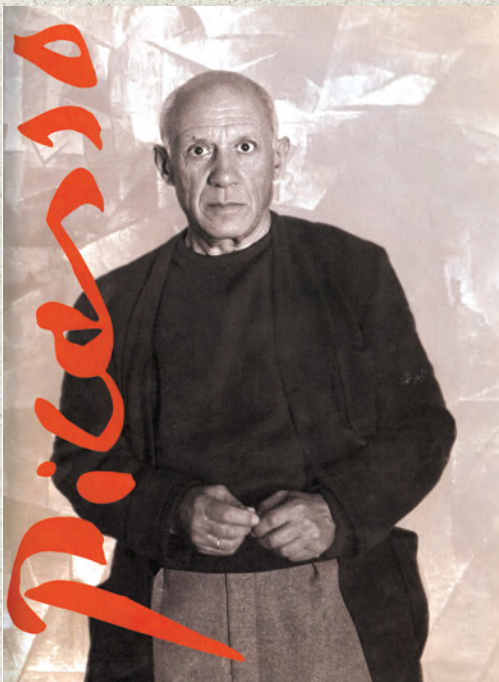

4.1 Read the rest of the leaflet and discuss what messages are communicated by this work of art.

The cubist painting by Picasso, called “Guernica”, is an immense black and white mural painted in oil. The mural depicts a scene of death, violence, brutality, and helplessness. It shows the suffering people and animals experience in the violence and chaos of a war. The overall scene is within a room. There are humans, animals and buildings in this scene but there seems to be no background. On the left side of the painting we can see a mother holding her dead child. A wide-eyed bull stands

over the woman. At the bottom lies a fallen soldier, still holding his broken sword from which a flower grows. In the centre above the soldier is a horse whose body is pierced with a spear. On the right, there is another woman trapped in a burning building.

The painting is very large: 349 x 776 cm. Despite its great size, it was painted in less than two months. Picasso was so angry about what had happened in Guernica that he wanted everybody to immediately take notice of the brutal event. All the figures in the painting seem to be crammed together and their mouths are open as though they are crying out. We get the feeling that they can’t get away from the horrors of war; they are trapped in their suffering.

Some people criticised Picasso’s cubist style because they could not understand his symbolism. Picasso answered his critics, “It isn’t up to the painter to define the symbols. The public who look at the picture must interpret the symbols as they understand them”. Even though opinions about the exact meaning of the images of the painting are numerous, there is no doubt that the painting sends a strong antiwar message, not only about what happened in Guernica but about the kind of suffering that takes place in any war.

4.2 Reflect on the painting.

Long ago in the city of Verona, lived two noble families, the Capulets and the Montagues. For as long as anyone could remember, there was much hatred between the two families. Romeo, the son of Montague, was the only one who wanted to make peace.

One day, Romeo heard there was going to be a feast at the house of Capulet. He decided to go, but in disguise so that no one would know who he was. When Romeo arrived there, he looked around the room, and caught sight of a girl so beautiful that he could think of nothing else. When he found out that she was Juliet, Capulet's daughter, he was stunned. Juliet also fell in love with the young man. When she heard that he was Romeo, the only son of Montague, she could hardly believe her misfortune. "My only love sprung from my only hate!" she said.

Later that night, Romeo was walking past the Capulets' garden when he suddenly stopped. "Can I go forward when my love is here?" He decided to climb over the wall and meet

Juliet. Then he saw her standing on the balcony. Juliet had not seen him. "Romeo, Romeo!" she said to herself. "Why are you Romeo? Refuse your name and I'll no longer be a Capulet". Romeo was filled with joy.

Romeo and Juliet confessed their love to each other and married in secret the very next day. While Romeo was coming back from the secret wedding, he came across Tybalt, Juliet's cousin, who had been arguing with Romeo's friend Mercutio. In the fight that followed, Tybalt killed Mercutio and then fell dead from Romeo's sword. Romeo had to escape from the city of Verona. Juliet's parents told her that she should marry another man. Filled with despair, Juliet went to the priest who had married them to ask for help. He had a plan. He would give her something to drink, which would make her sleep for forty hours. Her family would think she had died. Meanwhile, the priest would send a letter informing Romeo, who would then take Juliet away with him.

Odysseas Elytis

Odysseas Elytis was the pen-name for Odysseas Alepoudelis. He was born in Herakleion, Crete in 1911.

In 1914, his family, which originally came from Lesvos, moved to Athens, where Elytis began to study law after leaving school.

After some years, however, he broke off his studies and devoted himself entirely to his literary and artistic interests. He got to know the poet Andreas Embirikos, who became his lifelong friend. As time went by, he was inspired by Embirikos and the Greek-Byzantine cultural tradition. In 1935, he published his first poems in the magazine 'Nea Grammata'. He also took part in the first international Surrealist exhibition arranged that year in Athens.

Experiences from the war lie behind the work that made Elytis famous. He is known as one of the most prominent poets of the Greek resistance and struggle for freedom. After the war, Elytis was busy with various public assignments and he published very little in the following ten years.

The poetic cycle 'To Axion Esti', which began in 1948 but did not appear until 1959, is recognised as Elytis's greatest work. It has been translated into several languages and in 1960 was awarded the National Prize in Poetry. It was set to music by Mikis Theodorakis in 1964.

Odysseas Elytis was awarded the Nobel Prize for Literature in 1979. He died in 1996.

2.3 What factors affect people's eating habits?

read **3** 'Feed me better'

3.1 On the radio programme you have just listened to, the speaker refers to the celebrity British chef Jamie Oliver and his 'Feed me Better' campaign. What do you think his campaign was about? Was it successful? Read the text below to find out.

Nowadays, junk food dominates school menus. Children are not getting the right nutrients to help them grow, concentrate at school and stay healthy in adult life. Scientists stress that if children do not have a balanced diet they have behavioural and health problems.

In February 2005, Jamie Oliver, concerned with the poor nutritional value of the food served up in schools, decided not to put up with it any longer. He launched the 'Feed Me Better' campaign, which would try to improve school food in Britain. He presented a 4-part series on TV called "School Dinners".

Jamie worked with the dinner ladies at Kidsgrove School, Greenwich, to provide better meals at a cost of 37p per child. It was very hard work. The dinner ladies and Jamie did not agree. The kids cried and parents slipped burgers to them through the school gates. By the end of the show though, Jamie proved that schools can offer fresh, nutritious meals like pasta, vegetables and soups that kids enjoy eating. However, what was really needed was more money from the government. So, Jamie wrote his 'Feed Me Better' manifesto with the top five things which the government needed to change, and put it on the Internet.

Jamie's 5-step manifesto

Suddenly, up and down the country, parents and children were sharing Jamie's disgust at the state of school dinners. The headlines in the papers were deafening. Jamie was on the front pages of all the papers: *The Guardian*, *the London Evening Standard*, *The Daily Mail*.

Four days after the broadcast of the last episode, Jamie delivered his petition of 271,677 signatures to the Prime Minister at 10 Downing Street, who thanked Jamie for his remarkable work and announced that the government would take immediate action over school meals.

School kitchens would be rebuilt, dinner ladies trained, parents would become involved. All this would be supported by a £280 million funding package. The average cost per meal was almost doubled.

Jamie ended by saying: "If we follow a healthy diet and take regular exercise, our kids will be healthy adults. What came out today will make a difference to every kid in this country".

Adapted from: www.feedmebetter.com

3.2 Put the following sentences in chronological order. Then use them to write a summary of Jamie's campaign.

- b. The website petition hit 270,000.
- c. Jamie met the Prime Minister.
- d. The government gave money.

- ... 1 ... f. Jamie was worried about the poor quality of food at schools.
- g. In the beginning, parents and kids were against his effort.
- h. People from all over Britain supported him.

3.3 How would you promote a 'healthy eating' campaign in your school? Work in pairs to make a list of ideas.

3.4 Work in groups. Find detailed information in your Home Economics book or other sources about how your diet during adolescence can affect your health in later life. Use a diagram from pages 161-162 to organise your information and present it to your classmates.

3.5 Mini project: Questionnaire

Your teacher has asked you to prepare a 'Health and Fitness' questionnaire to investigate the eating and exercise habits of the students in your school.

Step 1: Work as a class to generate a list of questions for the survey.

e.g. **Question 1:**

What is the most important meal of the day?

a. breakfast

b. lunch

c. dinner

Step 2: Edit and print the questionnaire.

Step 3: Visit other classes to conduct the survey. Try to visit as many classes as possible, because the more data you have, the more accurate your results will be.

Step 4: When the survey is complete, make a bar graph or a pie chart with the results. Your Maths or IT teacher can help.

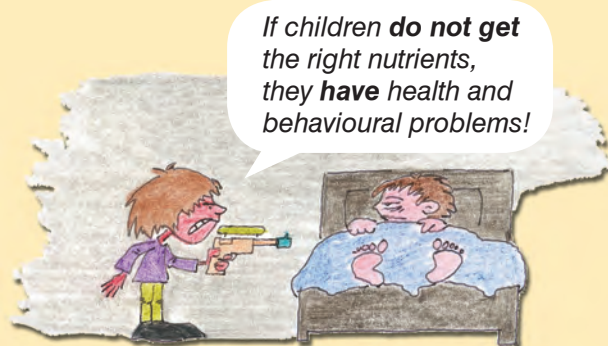

Step 5: Discuss the results in class. Do the students in your school have good or bad eating and exercise habits? Why?

Step 6: Inform other classes about the results of your survey. If these results show bad eating and exercise habits, you might want to do something about it. Look at the Unit Project (page 118) for ideas.

4.2 Which type do we use to talk about: a. something that is always true
b. a possible future situation

5 Talking about food

5.1 Look at the prompts below and make sentences, using 'Type 0' or 'Type 1' conditionals.

If you exercise a lot, you can eat as much as you like.

1. not eat fish or meat / be a vegetarian

7.2 You want to help Matthew with his problem. Here is a leaflet with information on eating well. Go through it carefully and underline 2 or 3 pieces of advice that you want to give Matthew. You can also get useful ideas from your Physical Education Book to help Matthew start exercising.

USEFUL TIPS

1. Use an appropriate greeting and ending. (Hi, Hello, Hey, Dear + first name / Love, Best wishes+ first name)
2. Start a new paragraph to write about a new topic.
3. Write short sentences.
4. Finish the e-mail with set phrases like: Talk to you soon, See you soon, Keep in touch, Write soon.
5. When we write e-mails to a friend we can use abbreviations like:

| | |
|-------|------------------|
| AFAIK | as far as I know |
| BFN | bye for now |
| CUL8R | see you later |
| HAND | have a nice day |
| HTH | hope this helps |

| PCM | please call me |
| RUOK | are you okay? |
| WU | what's up? |
| X | kiss |
| 2DAY | today |
| BW | best wishes |

7.3 Write an e-mail to Matthew, giving him advice and encouragement.

Lesson 17 The 'Greenest' Way to School

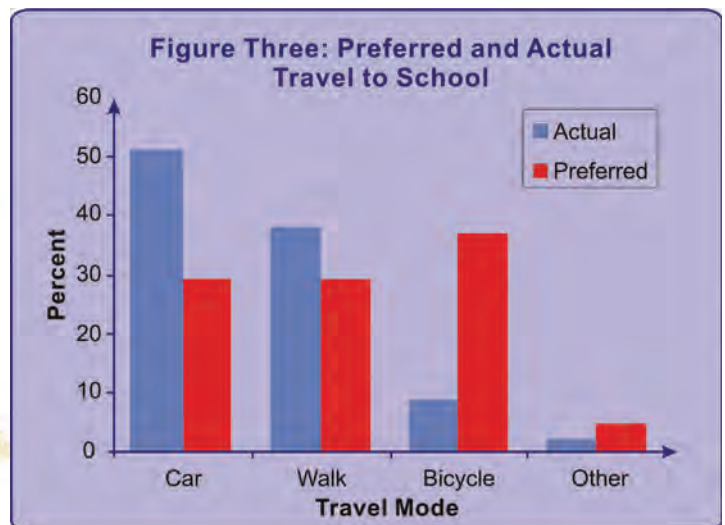

Travel to school

1.1 How do you usually get to school?

1.2 The graph below shows how some students from New Zealand get to school and how they would prefer to get to school. What are the results of the survey? Discuss.

e.g. Fifty per cent of the students get to school by car, whereas only thirty per cent would like to.

Bike to school

2.1 Listen to a radio announcement about a 'Bike-to-School Week' in England. What is the purpose of this announcement?

2.2 Read the information leaflet that was handed out to students for the 'Bike-to-School Week'. Underline the benefits of getting to school by bike. Then write them in the list on the next page in order of importance, starting with the most important one for you.

BIKE-TO-SCHOOL WEEK

Cycling kids are confident kids, more independent and brainier! Just 15 minutes cycling to and from school could make a real difference to your fitness, and the planet's future.

1. A Smarter Generation

Cycling makes you fitter, more alert and cleverer. A more active lifestyle, would greatly improve your chance of living a long and healthy life. But cycling and daily exercise have many immediate benefits as well. You will enjoy improved bone strength, muscle tone, increased alertness and improved school performance. Teachers often comment that children who walk or cycle to school arrive brighter and more ready to learn than those driven by car.

2. On your Own

Cycling encourages independence. If children are allowed to make their own way to school, they become more confident and independent. The school journey is an ideal opportunity for them to learn road safety awareness and other life skills. For many children, cycling is simply more fun and more sociable than going to school by car, and they love the feeling of freedom it gives them.

3. Taking the First Step

Cycling is good for the planet. If more children cycled to school, it would be good for the environment. There would be less traffic congestion, less pollution and fewer of the emissions that cause global warming. If more people decided to cut out the school run, the streets would also be safer and it would be easier to encourage others to do the same.

4. Thinking about Tomorrow

We are all aware by now that our planet's resources are slowly drying up and there is no way the earth can keep up with the demand. Cycling to school - and anywhere else for that matter - will ensure that our planet's valuable resources are not exhausted. Remember these resources 'belong' to everyone - future generations, too.

Don't show each other what you have written. Then combine your clauses to make sentences and read them aloud in class. Do any of them make sense?

6 Cycling around

The students of a German school want to write a report on the use of bicycles in your country. They have sent you the following e-mail to ask for your help.

Hey there! We're the students of class B2 in a school in Berlin and we're doing a project on the use of bicycles around the world! We need your help! We're looking for cities where people use bicycles a lot. So far, we've talked to people in Copenhagen, Amsterdam and Paris. We wonder if you could help us with info about your country. Anything you find would be helpful!

Here are some questions that may help you:

- How many people use bicycles in this city?
- Why do people use bicycles in this city?
- Do more men or women cycle?
- What age groups use bicycles most?
- Do the cyclists face any problems?
- What are their suggestions for the better use of bicycles?

E-mail us as soon as you can! Thanks a lot.

The students of class B2

You have come across a survey concerning the use of bicycles in the city of Karditsa. Read the survey carefully. Use the information to write an e-mail to the German students answering their questions.

Lesson 18 Going 'Green'

'Green' schools

1.1 Every day you do things that affect the environment in different ways. Work in pairs to think of the activities you do and what kind of impact they have on the environment.

*e.g. Leaving the lights on when you leave a room wastes energy.
Going to school on foot saves energy.*

1.2 What do you think a 'green' school is? Is your school 'green'? Why / Why not?

Steps towards a 'greener' school

2.1 Listen to three students who participated in eco-projects talk about what they did to make their schools environmentally friendly. Match the speakers with the areas they worked on. There is an extra one you do not need to use.

Speaker 3:

2.2 A group of students from the 2nd High school of Komotini worked on the theme of saving energy. They started their project by identifying the problems. Can you guess what problems they found?

2.3 Listen to a reporter from an international environmental newspaper interview the students about the project and the steps they took to complete it. Take down notes on the problems they found in their school. How many of the problems did you guess?

2.4 Read the rest of the interview and complete the “tree diagram” with notes on what the students did at each step.

Reporter: Great! Now after identifying the problems, what was your second step?

Tina: Well, we had to do a lot of research to get detailed information. For example, we found electrical bills and studied how much energy was consumed in the school. We estimated its value and then made charts and diagrams with our results.

Reporter: That must have kept you busy! So, I gather the next step was taking action. Am I right?

Vicky: Yes. We really got working! We wrote down a report and we announced it to students and teachers. We made sure the lights were turned off when classrooms were empty and we started to monitor the use of the lift. Only students who really need to, use it.

Lena: You forgot to say about the windows. We now keep them closed in the winter and we make sure that all our classmates are involved!

Reporter: Well, then I guess your job is done! Great work kids! Well done!

Markos: That's not all. There was one final step. You see, after all the work we did, we wanted our community to know... we wanted to get everyone involved. Everyone has to be sensitised!

Reporter: Of course! So, what did you do?

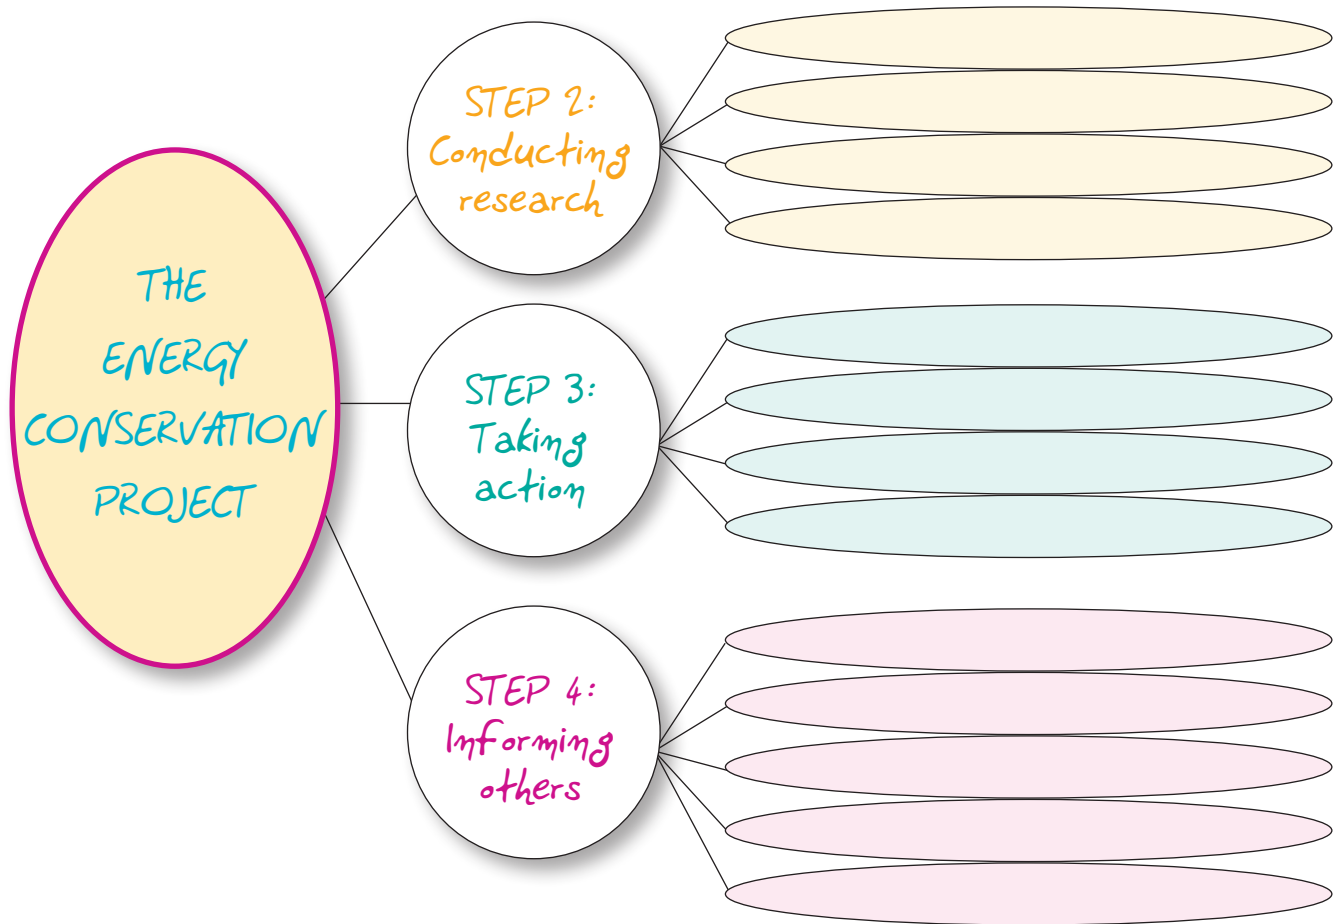

Markos: First of all, we organised a drawing competition to involve students from other schools and we worked with our teachers to make bookmarks with ecological messages which we gave out. We also distributed lots of leaflets with information. Our school newspaper also ran articles about what we did and the local radio station interviewed us.

Reporter: It must really be satisfying to know that with just a little effort, you have made a difference. Congratulations to you all.

3.2 Match column A with column B to make correct 'Type 1' conditionals using **unless** instead of **if ... not**.

Celebrate the beauty of nature

A school in Ireland participating in the Eco-Schools project worked on the conservation of the environment. As part of the action they took, they wrote haikus celebrating the beauty of nature.

Haiku is a type of poetry from the Japanese culture. Haiku poets write about everyday things and their themes include nature, feelings or experiences. They use simple words and grammar.

A Haiku has 3 short lines. The first line contains 5 syllables, the second line contains 7 syllables and the third line 5 syllables. Haiku doesn't rhyme. It must 'paint' a mental picture in the reader's mind.

Look at the following Haiku and try to mark the syllables with your pencil.

RAIN

Soft whispers of rain
Falling from white, cotton clouds.
They touch the earth's face.

(5 syllables)
(7 syllables)
(5 syllables)

Now, look at some more Haikus. One has the 7-syllable line missing and the other has one 5-syllable line missing. Use your imagination to fill them in.

Yellow sunflowers

.....
Moving in the wind.

Cool ocean water
Splashing and pounding the shore,

.....

WRITING A HAIKU

Now it's your turn to write your very own haiku.

THEME

- Pick your theme. Nature is an easy theme to begin with, since it has many images. Look at pictures of nature to get inspired!

MOOD

- What is the 'mood' or feeling you want to create? Happy? Sad? Reflective?

LANGUAGE

- Think of images and descriptive words that describe your theme. Use all your senses! Jot down the words as they come into your mind.

THE POEM

- The final step is to put your ideas on the haiku 'frame': 3 lines, 5, 7 and 5 syllables. When you are satisfied with the result, read it aloud. Can you 'see' a picture in your mind?

PUBLISHING

- Type your haiku in a font that you feel suits it, or write it out clearly. Illustrate your poem, or if you are computer 'talented', draw it on your computer.

Project time: Towards a healthier, fitter and 'greener' school!!!

What can you do to make your school a healthier, fitter and more beautiful place for everyone?

1. Get into groups and choose the topic you want to work on. Consider the following:

- Health and eating habits
- Sports and exercise
- Waste and litter
- Energy
- School grounds

2. Go round your school and identify areas that are problematic. If possible, take photos that clearly show the problems.
3. Discuss with your group what you can do about the problems. Make an action plan.

4. Take action to make a difference. You can:

- organise a healthy eating day / week
- make organic compost for your school garden
- organise 'active breaks'
- plant flowers and trees
- install recycling bins
- make and put up banners to inform other students about the problems

5. Inform the community. You can:

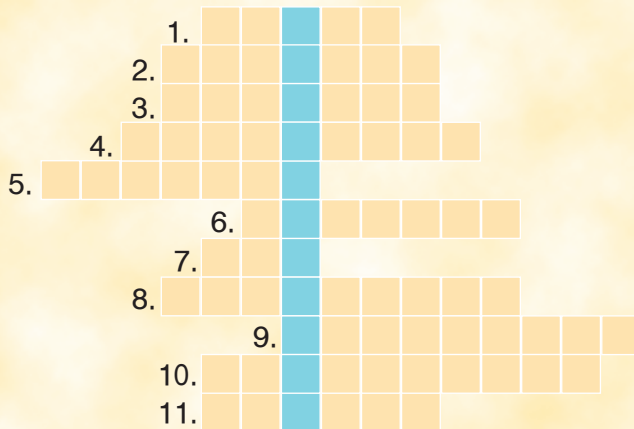

- take photos that show how the situation has improved. Exhibit your 'before' and 'after' photos side by side onto posters and accompany them with captions that describe the action you took.
- compile your work onto a CD-Rom and present it on your web site.

2.2 Read their story to see if you guessed right.

A Fearless Friend!

To celebrate the end of their first week as ninth graders at a high school in Orlando, Florida, Edna Wilks, her friend Amanda Valance and some other students decided to go for a moonlight dip in a lake near Edna's house. "It's a very safe lake," said Edna, then 15, "and we're good swimmers".

But as they waded and splashed in the water the night of August 18, 2001, something broke the surface of the lake and grabbed Edna's left arm. "I thought it was someone playing around," she said. "When I saw the alligator's head, I didn't have enough time to scream. He just pulled me under and started spinning me over and over. I thought that this was the end".

For a brief instant, the deadly alligator loosened its grip and Edna burst to the surface and cried out for help. "I saw everyone swimming away," she said. "All the kids were heading for the shore. I screamed, 'Come back! Please, don't leave me!'"

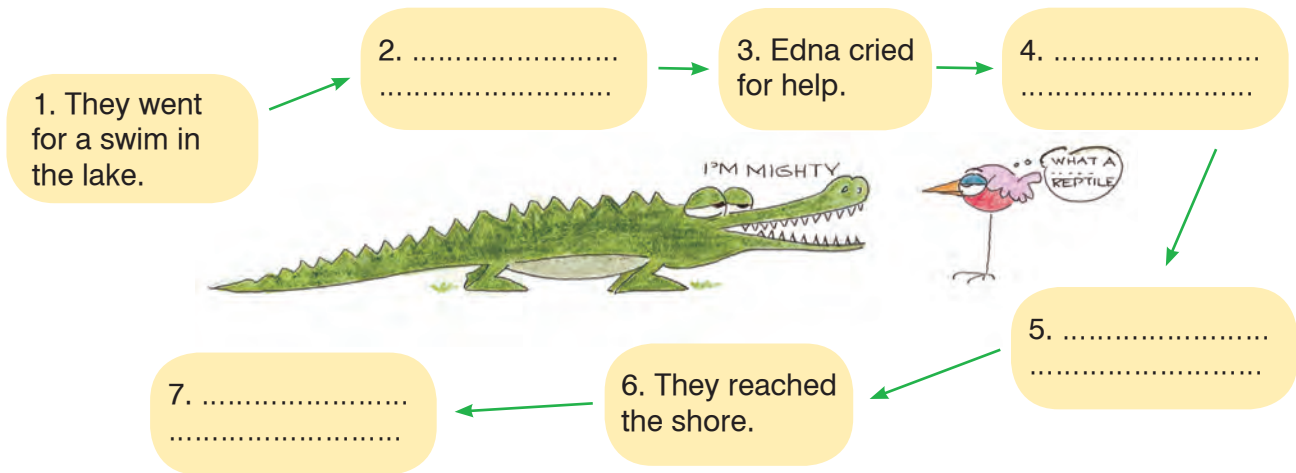

But everyone did – except for her best friend Amanda, who didn't panic and paddled towards her on a surf board. "I was a bit scared for a moment,"

said Amanda. "Then I thought, no, I can't leave my best friend out here to die." When she reached Edna, the gator surfaced and seemed to glare at her. Amanda pushed Edna onto the board, and towed her steadily towards the shore 50 metres away. The alligator began to approach them. Although she was petrified, Amanda kept comforting Edna. "I told her, 'Don't give up... you must try... you can make it...' I was crying."

When they reached the shore, Edna's mother and paramedics were anxiously waiting to rush her to hospital. Miraculously, the reptile had only snapped Edna's upper arm bone. "We all look up to Amanda. If it weren't for her incredible bravery, Edna wouldn't be here today," said Edna's mum. Edna added, "Amanda's biggest fear was being attacked by a shark or alligator, yet she still took the risk and saved me. She's a courageous, amazing friend and she definitely qualifies as a hero!"

Making a new friend

- 2.1 Listen to an extract from the same story. How do the boy and Abram meet and how do they become friends?

I am sitting on the bench tapping my good luck song with my shoes when I hear the bells of an ice cream truck. I feel the money in my pocket. I have the dime and I also have a bigger one. I know I have enough for an ice cream bar. I walk out to the curb, touching the cages around the trees. I wait until the bells sound near, and I wave. He stops. He is near enough to me to touch his cart. Now I feel him seeing me.

"Here," I say, but he does not take my money. "Guess what?" he says, and his voice is soft and kind as fur. "Every tenth kid wins a free ice cream bar, and you're the lucky one today."

I can feel him getting off his cart and going around to open the place where he keeps his ice cream bars. I can feel him putting one near my hand and I take it. I start back to my bench.

"You gonna be okay by yourself now?" the ice cream man calls. I sit on the bench. I listen for the sound of his cart starting up, and his bells ringing, but I can only hear the other sounds, the regular ones. Then I hear him walking over to my bench. I am sorry, because I only want to feel the ice cream and see how long I can make it last. I do not want anyone to sit with me now. I may dirty my clothes and I am afraid he will see me.

He starts to talk. His name is Abram. He tells me about the park. My sister says the trees are in cages because if they weren't in cages they wouldn't stay in such a terrible park. Abram says the trees are in cages to keep them safe so they can grow up to be big and tall.

My sister says the park is ugly and dirty. Abram says there are a few little bits of paper, and a couple of cans and some bottles, but he says he can squint up his eyes and all those things lying around shine like flowers. Abram says you see what you want to see.

My sister says the park is just for poor folks, and that no one would ever come here if they had a chance to go anywhere else. Abram says the park is just for lucky people, like him and me. He says the people who come to this park can see things inside themselves, instead of just what their eyes tell them.

After a while Abram goes away. He says, "I will come back and look for you tomorrow". I hear his ice cream bells go farther and farther away until I do not hear them anymore. While I am waiting for my sister to come for me, I fall asleep on the bench. I have a good dream. I dream that Abram lifts me so I can touch the leaves of a tree. All of the leaves are songs, and they fall around me and cover me. I am warm and soft under the songs. My sister shakes me awake. "You'll catch cold lying here," she says.

The next day while I am sitting on my bench, I hear the ice cream bells and I walk out to the curb, touching the cages of the trees as I go. Abram gives me an ice cream bar and we walk together back to the bench. I do not have to touch the cages because I am with him. I have made a good friend.

2.2 Work with your partner and answer the following questions.

1. What kind of a person does Abram seem to be?
2. "Abram says you see what you want to see". Why do Abram and the boy's sister 'see' the world around them differently?
3. Whose view do you think the boy prefers and why?

What do you think?

3.1 Look at the photos. All of these people need help. What can you do to help them? Complete the table below. Add more ideas of your own.

| People in need | Type of help |
|-------------------|--------------------|
| e.g. the disabled | doing the shopping |

3.2 "Dogs are man's best friend". Discuss friendship between people and animals. Find a story that clearly illustrates the bond between man and animals or share your own experience with the rest of the class.

4 Language focus

4.1 Look at the following reported statements. Find the actual words of the boy and Abram in the text and complete the **direct speech** list below.

| Direct speech | Reported Speech |
|--|---|
| <p>Present Perfect</p> <p>(1)</p> | <p>Past Perfect</p> <p>The boy said he had made a good friend.</p> |

| <p>may</p> <p>(3)</p> | <p>(b)</p> <p>The boy said he might dirty his clothes.</p> |

4.2 How have the verbs changed from direct to reported speech? Complete the table above.

4.3 The verbs 'say' and 'tell' are most commonly used as introductory verbs in reported speech. Other verbs that we can use are:

| Reported statements | Reported requests and orders | Reported questions |
|---|--|---|
| <ul style="list-style-type: none"> • tell • say • add • reply • think • answer • explain | <ul style="list-style-type: none"> • tell • ask • warn • order • advise | <ul style="list-style-type: none"> • ask • wonder • want to know |

NOTE
Words and expressions that change in reported speech:

- this – that
- here – there
- now – then
- ago – before
- today – that day
- tomorrow – the next day
- yesterday – the day before
- last week – the previous week
- next month – the following month

4.4 Put the sentences from the text in reported speech using the introductory verb in brackets.

- "Every tenth kid wins an ice cream bar" (explain)
Abram
- "You are the lucky one today" (add)
Abram
- "The park is just for lucky people" (think)
Abram
- "You will catch cold lying here" (warn)
His sister

What do you think?

5.1 Read the poem below. Can you guess which word is missing from both the title and the poem? Listen to check your answer.

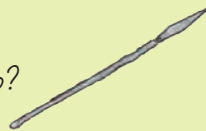

THE BLIND MEN AND THE by John G. Saxe

It was six men of Indostan
To learning much inclined,
Who went to see the
(Though all of them were blind),
That each by observation
Might satisfy his mind.

The First approached the,
And happening to fall
Against his broad and sturdy side,
At once began to bawl:
"God bless me! but the
Is very like a wall!"

The Second, feeling of the tusk,
Cried, "Ho! what have we here
So very round and smooth and sharp?
To me 'tis mighty clear
This wonder of an
Is very like a spear!"

The Third approached the animal,
And happening to take
The squirming trunk within his hands,
Thus boldly up and spake:
"I see," quoth he, "the
Is very like a snake!"

The Fourth reached out his eager hand,
And felt about the knee.
"What most this wondrous beast is like
Is mighty plain," quoth he;
"'Tis clear enough the
Is very like a tree!"

The Fifth, who chanced to touch the ear,
Said: "E'en the blindest man
Can tell what this resembles most;
Deny the fact who can,
This marvel of an
Is very like a fan!"

The Sixth no sooner had begun
About the beast to grope,
Than, seizing on the swinging tail
That fell within his scope,
"I see," quoth he, "the
Is very like a rope!"

And so these men of Indostan
Disputed loud and long,
Each in his own opinion
Exceeding stiff and strong,
Though each was partly in the right,
And all were in the wrong!

5.2 What is the point the poet is trying to make? How does this point relate to the story of the blind boy?

5.3 Draw the animal described above based on the opinions of the blind men. What does it look like?

Did you know?

The Blind Cow Restaurant in Zurich, Switzerland, offers up a different dining experience: Guests eat in complete darkness and are served by blind or visually handicapped staff!

Play a game

Put on a blindfold or close your eyes. Describe the object your teacher gives you only by smell, touch or taste. Reflect on what it felt like to be 'blind'.

Η δράση eTwinning δημιουργήθηκε για να δώσει στα σχολεία την ευκαιρία να μάθουν μαζί, να μοιραστούν τις απόψεις τους και να δημιουργήσουν καινούργιες φιλίες. Προωθεί αντίστοιχα τη συνείδηση του ευρωπαϊκού πολυγλωσσικού και πολυπολιτισμικού κοινωνικού μοντέλου. Μέσω του eTwinning, σχολεία των κρατών της Ευρωπαϊκής Ένωσης αλλά και της Νορβηγίας, της Ισλανδίας, και πρόσφατα της Βουλγαρίας και της Ρουμανίας, υποστηρίζονται στην «αδελφοποίηση» σχολείων μέσω του Internet.

7.2 Below are some comments from your classmates' portfolios about the benefits they gained from participating in the eTwinning project. Write down the benefits and tell Jennifer about them.

I was never really good at using my computer. I felt I had no computer skills at all. Now, I'm fast and most important of all, I can use my computer with ease for many other things.

Helena

eTwinning is really great! I exchange e-mails with so many people, that I feel I now have new friends all over the world.

Jason

The eTwinning project made me work harder on my English! I'm much more fluent and I don't find writing in English difficult any more.

UNIT 8

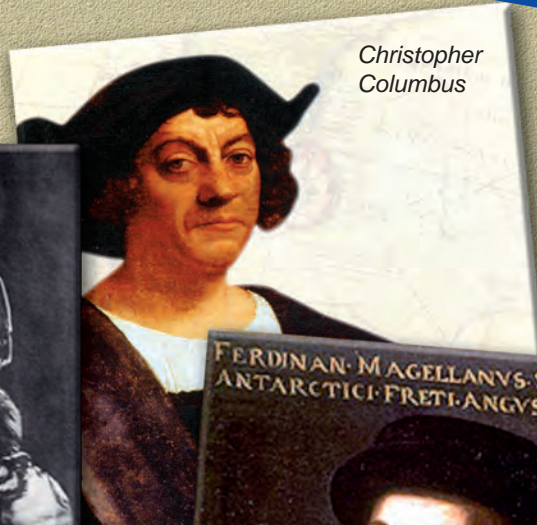

WELCOME TO THE WORLD

Marco Polo

Amelia Earhart

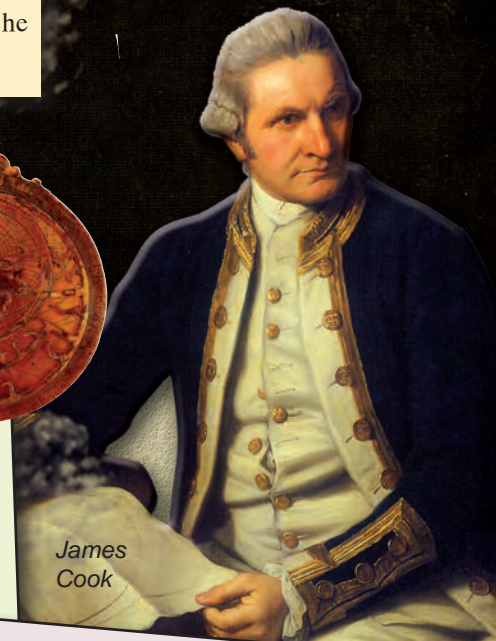

Christopher Columbus

Ferdinand Magellan

Sir Francis Drake

James Cook

Marco Polo's Odyssey

During the Middle Ages, most people in Europe spent their entire lives in the village where they were born. But in the 13th century, a young Italian named Marco Polo travelled all the way to China! Marco was only seventeen years old when he left Venice. It took him almost four years to cover the vast distance over steppes, deserts and mountains before he finally reached the palace of Kublai Khan, the Mongol emperor.

When he arrived, Marco found a shining palace of marble and gold. The walls of the palace ran for miles and enclosed a vast park full of animals and over two hundred kinds of birds. China was full of riches that Europeans were eager to buy. Kublai Khan was impressed and sent Marco Polo on many important missions to distant parts of the empire.

When Marco Polo returned home to the city of Venice, he talked about the wonders he had seen in China. The story of Marco Polo's travels became popular all over Europe, even though many people thought Marco had made up a lot of the wonders he described. One person who read Marco's book believed it all. In fact, he was so excited that he wanted to find a fast sea route to China. His name was Christopher Columbus...

1. What impact did Marco Polo's journey have on the world of his time?
2. Look at the pictures of other important people whose love for travel and adventure broke the boundaries of their world. Work in groups to choose one of these people and make a 5Ws chart about them. Then, present the information to your classmates based on your chart.

In this Unit you will:

- join some students on a journey round the world
- look at interesting photos and learn about people and places
- plan an afternoon out with your friends
- send a virtual postcard
- read a poem

- At the end of this Unit, you should be able to:
- discuss the content of pictures and where they come from
 - propose a plan and reach a common decision about what to do with your friends
 - express your opinions, wishes, likes and dislikes

Lesson 22 Breaking the Boundaries

1 Setting off

In 1271, 17-year-old Marco left his hometown of Venice to embark on an adventure that was to last 24 years, and which took him to places that Europeans had never heard of until then! Travelling today is much easier, but just as exciting!

Why do you think people still see travelling as an adventure?

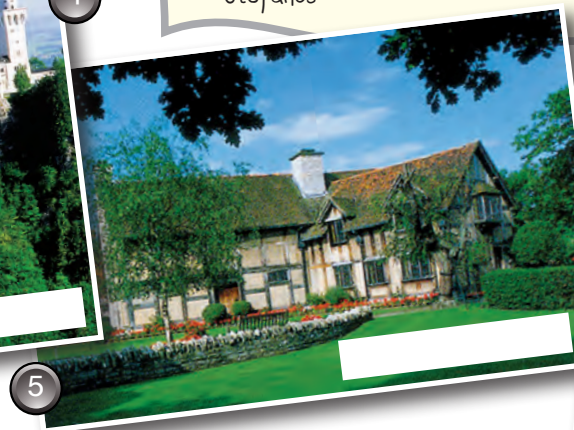

2 A tour of Europe

2.1 A group of B class students who participated in an eTwinning project won a trip around the world as first prize. One of the students, Stefanos, is writing a letter to his penfriend to tell him about the first part of their journey.

Read the letter and trace the route the students followed on the map.

Dear Frank,

I know I promised to send you a letter right away, but we've been on the go non-stop – we've barely had time to catch our breath!

Anyway, here we are in London, sitting in a pub on the banks of the river Thames, eating fish and chips and watching the people go by. I'm still pinching myself! ... London is everything we thought it would be, and more! Tomorrow is going to be a busy day... Some of us are visiting Shakespeare's house in Stratford-upon-Avon and the others are going to Thorpe Park – if it doesn't rain!...

But let me start at the beginning. Our adventure started 10 days ago when we set off from Thessaloniki. After a brief stop in Italy, we flew to Madrid. We spent a marvellous 3 days going from football matches to flamenco dances to tasty tapas bars and of course the Prado Museum. We had to queue for two hours to get in! Phew! ...

After that, we zipped on to France, driving through the Pyrénées where we got a bit lost going up and down and all around! The French countryside is 'magnifique' my friend, but the highlight was Paris, of course, and the boat ride on the Seine (...not as blue as in the postcards, 'mon ami'!).

We crossed over to Dover through the Chunnel and we have been in London for the past few days, having a ball! Our train leaves for Germany the day after tomorrow, where we're going to meet up with another class of winners. They're going to show us around. Hopefully, we'll get to eat some real sausage and sauerkraut, and maybe see a castle or two!

After Germany, we will be flying to our last destination on this leg of our journey, which is Helsinki, in Finland. Too bad it's summertime... Santa Claus will probably be on holiday somewhere hot! Crete maybe, or Florida!

Okay, have to go now! It's almost time for 'me tea, dearie'! (Did that sound British?). I'll send you your next update from Helsinki and I'll try to fit in some pictures!

Lots of love,
Stefanos

2.2 The pictures on this page come from Stefanos's photo album. Read the letter again, find the places he visited and label the pictures to help him remember where he went.

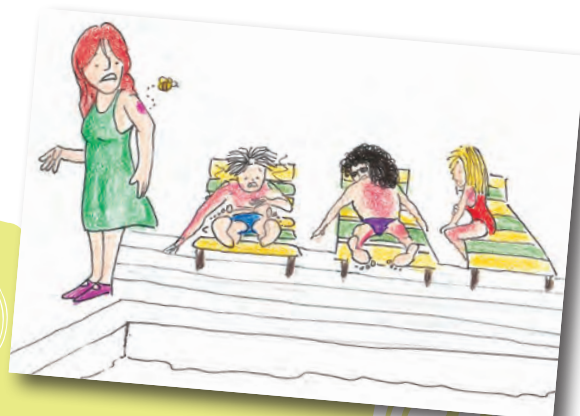

2.3 What means of transport do you think the students used in order to move from one place to the next? Look at the map and the letter for clues.

A school reporter

3.1 Gregory, another student, has brought along his brand new mini recorder and is recording his impressions of the countries the class is travelling through in order to write an article for his school newspaper. Listen and help him decode his recordings.

An afternoon out

4.1 Work in groups. Imagine you are students from class B4 and you are now in Hastings, a seaside town near Dover, in the area of East Sussex. You have a free afternoon and you want to decide what to do. Look at the choices on the next page and the tips in the boxes below, and plan your outing. Take into consideration the time available, the prices, your interests, etc.

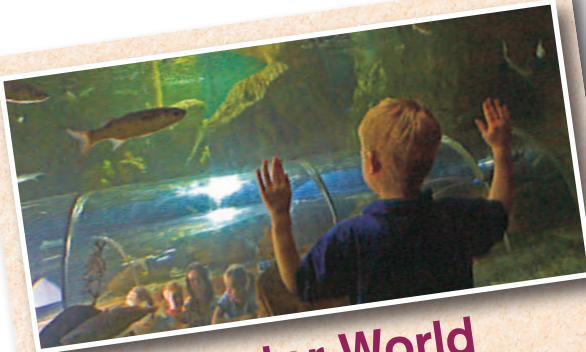

Negotiation tips:

- Negotiating is about reaching an agreement.
- Try not to view negotiation as a contest that must be won.
- It is important to maintain control. Try not to get emotional.
- Try to understand the other person's needs and wants. Remember! You are trying to find a solution acceptable to all parties.
- Try to create a spirit of cooperation among all those involved.
- It is important to state not only **what** you want, but **why** you want it.

Useful expressions

Don't you agree that ...?
 Don't you think so?
 Do you really think that?
 I see your point, but ...
 Yes, but on the other hand ...
 No, but look ...
 That's agreed then!
 Well, that's settled then.

Dear Ms. Petridou,

Well, we promised to keep you updated and so here is our first postcard! After Helsinki, we flew straight to Moscow, Russia. We thought it would be cold, but the weather is actually nice and mild. The people are quite friendly and they keep speaking Russian to us! We saw an amazing ballet performance and a concert and we went sightseeing in the famous Red Square. We also ate blinis with sour cream and tasted some borscht.

We'll write soon,
Class B4.

Dear Ms. Petridou,

On from Russia and through India, to finally reach China. Our reservations were at a lovely hotel in Beijing, which is a beautiful, lively city. The inhabitants ride their bicycles everywhere and they are probably the politest people on earth! We had healthy Chinese food with lots of vegetables, although we couldn't use the chopsticks at all! North of Beijing, we visited the Great Wall of China which winds its way from mountaintop to mountaintop. Its total length is around 6,500 km and it took nearly 1,000,000 men to build it! You can't really tell how big it is from the postcard. You have to see it to believe it! Everyone sends their love,

Dear Ms. Petridou,

After two days in China, we packed our bags and headed for Japan. Tokyo looks a lot like a big American city - chaotic and noisy! There are so many people everywhere! Imagine: there is even a special uniformed man who pushes and squeezes people onto the underground! We didn't have time to visit any of the islands, but we managed to see the majestic Mt. Fuji in the distance with its snow-covered peak! We also had some great sushi wrapped in sea weed. Yum!

See you soon,
Sayonara,

Dear Ms. Petridou,

Our next destination was Australia, where we are now. Did you know that the seasons here are reversed and it is now winter? We have already been to the famous Opera House where we saw our very first opera and tomorrow we are going to visit a wildlife reserve and hopefully we'll get our first glimpse of kangaroos and koala bears. We hope all is well with you. Have to go now; we're going to buy some souvenirs! We'll bring you a shark tooth necklace that we saw ... if anyone can understand the currency here! ...

Lots of love from everyone,
Class B4.

Lesson 24 | A World without End

1 Guess where!

1.1 Our friends are now on the last leg of their journey and they are visiting the final three countries. Read the clues below to see if you can guess the remaining countries and write the name of each country in the box provided.

1.

Clues:

- This country is in the same hemisphere as Australia but in a different continent.
- Its flag is green and yellow.
- It has a world famous football team.
- Every year an amazing carnival takes place there.

2.

Clues:

- This country is in yet another continent.
- In ancient times, the Greeks had visited it.
- It had an amazing civilisation just as important as our own.
- The longest river in the world runs through it.

3.

Clues:

- This country has dozens and dozens of islands.
- The southernmost point of Europe is found in this country.
- It is not in the same continent as the previous country although they are very close to each other.
- It is known as “The Cradle of Democracy”.

1.2 Look at the pictures and guess which country each one comes from. What helped you decide?

2 ‘On top of the World’

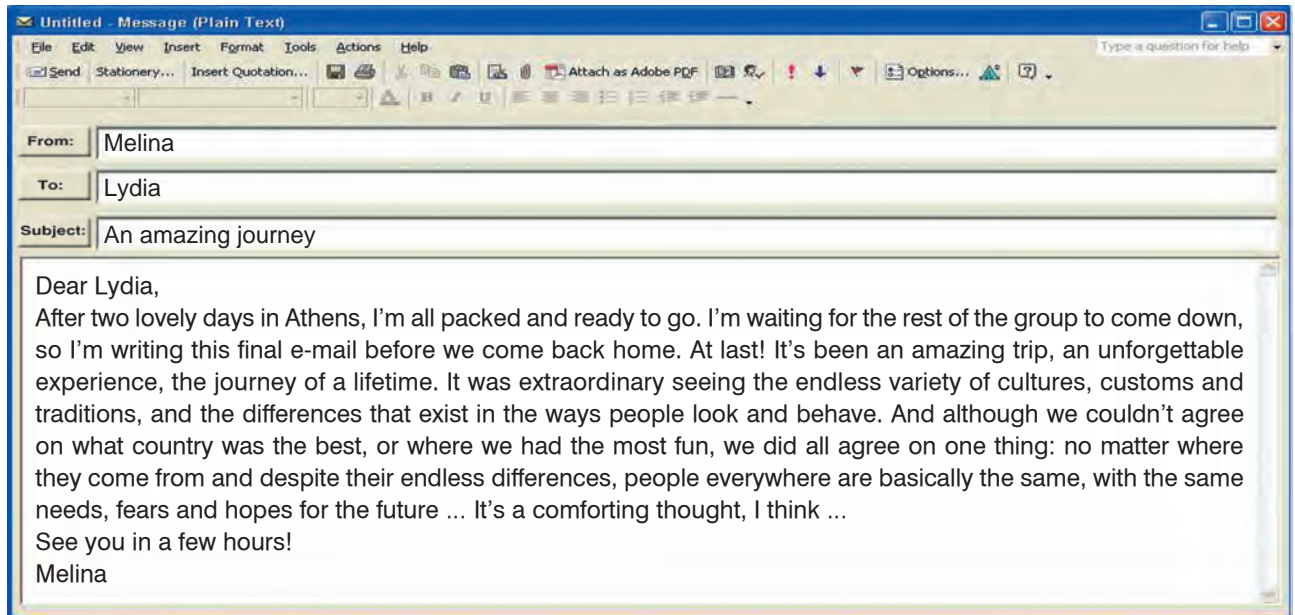

Work in groups. Visit <http://xenios.cti.gr>. Click on ‘by computer to England’, then on ‘Language practice’ and on ‘London map’. Click on the link <http://www.lonelyplanet.com>. Select a continent, then a country and some popular places in this country. Open the photo gallery, choose the pictures you like best, print them and make a collage portraying different aspects of this country. Write captions under the pictures and display your collage in class.

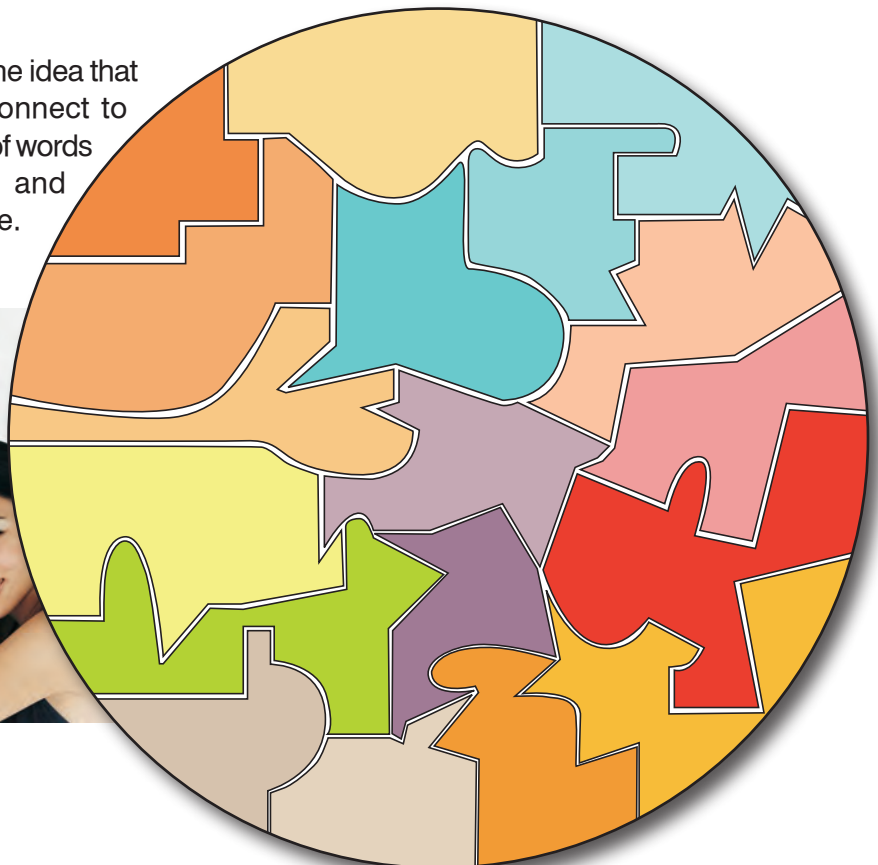

The end of a magical journey

- 3.1** Melina sent her friend Lydia a final e-mail telling her about what this amazing journey with her friends meant to her. Read her e-mail to see what conclusion she came to about people all over the world.

- 3.2** Do you agree with Melina's point of view? Go back to page 9 of your book and discuss how her final comment relates to the idea of 'Unity in Diversity'.

- 3.3** Look at the globe. It represents the idea that many diverse pieces can interconnect to form a harmonious whole. Think of words that represent this idea for you and write them down within the globe.

4 A magnificent poem

Kavafis is one of the most prominent Greek poets whose poems have been translated into English, French, Italian, German, and several other languages. Read his poem “Ithaca” and discuss why the ‘journey’ is more important than the ‘destination’.

ITHACA

*As you set out for Ithaca
hope that your journey is a long one,
full of adventure, full of discovery.
Laistrygonians and Cyclops,
angry Poseidon—do not be afraid of them:
you’ll never find things like that on your way
as long as you keep your thoughts raised high,
as long as a rare sensation
touches your spirit and your body.
Laistrygonians and Cyclops,
wild Poseidon—you won’t encounter them
unless you bring them along inside your soul,
unless your soul sets them up in front of you.*

*Hope that your journey is a long one.
May there be many summer mornings when,
with what pleasure, what joy,
you come into harbors seen for the first time;
may you stop at Phoenician trading stations
to buy fine things,
mother of pearl and coral, amber, ebony,
sensual perfume of every kind—
as many sensual perfumes as you can;
and may you visit many Egyptian cities
to learn and learn again from those who know.*

*Keep Ithaca always in your mind.
Arriving there is what you’re destined for.
But do not hurry the journey at all.
Better if it lasts for years,
so that you’re old by the time you reach the island,
wealthy with all you have gained on the way,
not expecting Ithaca to make you rich.
Ithaca gave you the marvelous journey.
Without her you would not have set out.
She has nothing left to give you now.*

*And if you find her poor, Ithaca won’t have fooled you.
Wise as you will have become, so full of experience,
you’ll have understood by then what these Ithacas mean.*

Edmund Keeley & Philip Sherrard*

LESSON 4 – MYSTERIES OF OUR WORLD

** Extra - Reading, p. 32

Read the text and fill out the 5Ws chart below with the relevant information. Then work in pairs and use the chart to ask and answer questions about the statues.

How did the Easter Island sculptors create their statues?

Hundreds of gigantic statues - some standing on stone platforms, others buried up to their necks in the soil or lying broken on the ground - dominate a small remote Pacific island. The island has been known to the outside world as Easter Island since it was discovered by Europeans on Easter Day in the year 1722.

The statues were carved by inhabitants of the island to decorate coastal temples. It has been estimated that a team of 90 men would have taken about 18 months to carve each statue and get its position! The statues were apparently created over a period of several hundred years, ending about 200 years before the first Europeans arrived in the 18th century.

There are about 1,000 of the giant Easter Island statues. They range from 3ft (1m) to 70ft (21m) high and probably represent famous chiefs or long-dead ancestors of the islanders who erected them. The statues were carved from stone composed of compressed volcanic ash using primitive tools.

Read the text about Spartan boys and girls in ancient Greece to find out what they used to do. Write 6 sentences.

Spartan boys were sent to military school at age 6 or 7. At school, they were taught survival skills to become great soldiers. School courses were very hard and often painful. They walked barefoot, slept on hard beds, and did a lot of exercise and other physical activities such as running, jumping, javelin and discus throwing, swimming, and hunting. At 18, Spartan boys became military cadets and learned the arts of war.

In Sparta, girls also went to school at age 6 or 7. The girls were taught wrestling and gymnastics. The Spartans believed that strong young women would produce strong babies. At age 18, if a Spartan girl passed her skills and fitness test, she would be assigned a husband and allowed to return home. If she failed, she would lose her rights as a citizen, and become a member of the middle class.

Between about 1590 and 1610, Shakespeare wrote over 100,000 lines of drama and brought to life 1,277 characters. * Extra - Reading - Activity 2.2, p. 110

Read the text below and answer the questions.

Walking School Bus - it's great fun walking to school

There are so many good reasons to encourage children to walk to school. Walking school buses help families work together to make it happen. Just like a real bus, a walking school bus follows a pre-determined route. It's 'driven' by parents who ensure children are safe on their way to school. It's entirely up to the families on the route whether the same parents will drive the bus every time or whether families on the route will take turns. Walking school buses can be flexible, as they can run on one day or up to five times a week.

1. What is a walking school bus?
2. What are the advantages of the walking school bus?

LESSON 18 – GOING ‘GREEN’

***** Extra – Reading, p. 114**

1. Read the article below to find out which vehicles
 - a. run on electricity
 - b. keep people healthy
 - c. cost little to maintain
 - d. produce less or no pollution

ALTERNATIVE VEHICLES

Virtually all cars, trucks, and buses on the road today are designed to operate using gasoline or diesel fuel. These are non-renewable fossil fuels that won't last

forever. Finding alternatives is a sensible way to plan for future transportation needs. Unless we realise the importance of using a means of transport that is friendly to the environment, big cities will slowly suffocate. Alternative fuel vehicles are designed to run on fuels other than gasoline or diesel fuel. Some of these vehicles are already on the road. Others are still in the research and development stage.

A. Battery Electric Vehicles

Electric vehicles (EVs) run on electrical energy. Instead of a fuel tank, batteries store the electricity that is used to operate them. In order to charge these batteries, you plug the vehicle into a charging station or a 220V outlet at a home or office. EVs have a top speed of 25 mph and are perfect for short trips in the traffic of a large city. Most importantly, though, driving an EV produces no pollution at all.

B. Hybrid Electric Vehicles

A hybrid vehicle is any vehicle that uses two or more power sources. The most common hybrids on the road today are gasoline-electric hybrids. A gasoline engine and an electric motor power these vehicles. Hybrid EVs use more efficient gasoline engines than conventional vehicles and also burn less fuel. As a result, they produce fewer pollutants. Hybrids don't have to be plugged in. Their batteries are charged by the gasoline engine and the electric motor or generator.

C. Biodiesel Vehicles

Biodiesel is a cheap fuel that can be made from vegetable oils, recycled cooking oils from fast food restaurants, and certain animal fats. Biodiesel can be used in any diesel engine in place of diesel fuel. Biodiesel is easy to make and store, and is safer to transport than diesel fuel. It helps increase engine life. Compared to diesel fuel, biodiesel produces almost no pollutants and significantly reduces carbon dioxide emissions. It's also more pleasant to use, as the exhaust from a biodiesel vehicle often smells like popcorn or French fries!

D. People-Powered Vehicles

Some vehicles run solely on people power. Wheelbarrows, rickshaws, and bicycles are just a few examples of transportation devices powered by people. In many parts of the world, especially in places where vehicles and fuel are expensive and difficult to obtain, people depend on their own two feet for transportation. Using people power whenever possible makes a lot of sense. Walking and bicycling produce no pollutants and help keep the environment healthy. They also contribute to personal health - getting plenty of exercise can lengthen a person's life span and help avoid health

problems. And people are easy to fuel - all it takes is food!
